D-R-1 through D-R-9 10-07

PPC-EXP 10-06

The following pages are withdrawn:

Pages Withdrawn Edition

DSP-1.001 and DSP-1.002 10-07

The purpose of this filing is to implement various changes in our Rental Owners Program in Arkansas. Please see accompanying actuarial memorandum and exhibits for more detail on the rate change. In an effort to allow for an adequate rate for our renewal book of business, we are removing the 20% cap on yearly increases in premium.

Deductible Revisions

We no longer have any policyholders with the $500 all peril deductible; therefore we are withdrawing this deductible option and the associated DSP rating pages.

General Rules Revisions

Rule 500, in the Premium Determination Section, has been revised to add the Log Home Surcharge factor.

Miscellaneous and Endorsement Coverages Rule Revisions

A new Log Home Surcharge has been added. For dwellings constructed of full logs, a 75% surcharge applies. The surcharge does not apply to dwellings with log siding.

Modified Replacement Cost, SD-3975, was revised. The current pricing algorithm creates a problem at certain coverage amounts where the premium for a policy with the Modified Replacement Cost Endorsement is actually higher than the premium for a policy insured at its full replacement value. The proposed calculation for this endorsement corrects this problem by applying a credit to the premium valued at full replacement cost.

Replacement Cost Coverage – Buildings, SD-11048, has been removed from the manual as the associated endorsement is being withdrawn.

Protection Class Exception

The Protection Class Exception page has been revised. Protection Class 11 has been removed as an exception.

We propose this filing become effective June 16, 2009, for new business and renewal business. Please note that we have made corresponding homeowner rate filings in American National General Insurance Company and in American National Property And Casualty Company with the same effective date.

If you have any questions regarding this filing, please contact me at 417-887-0220, extension #2009, fax #417-877-5014, or via my E-mail address listed below.

Please acknowledge receipt in your usual manner.

Sincerely,

Kelly Bennett

Objection Letter

Objection Letter Status	Pending Industry Response
Objection Letter Date	04/27/2009
Submitted Date	04/27/2009
Respond By Date	

Dear Kelly Bennett,

This will acknowledge receipt of the captioned filing.

Objection 1
No Objections
Comment: The explanation of the allocation of premiums between wind and non-wind appears flawed. Catastrophe losses could conceivably be other than wind/hail. The conclusion that the percentage of losses that are catastrophic is directly proportionate to the premiums does not seem logical. Provide additional support or revise the filing.

Objection 2
No Objections
Comment: The input data does not sufficiently identify variables used by the model to develop the catastrophe wind provision. Historical data for AR should be sufficient to determine a provision that is distirbuted equally across the state. Wind losses are likely to occur indiscriminately throughout the state. The use of the AIR wind model is unacceptable. Please amend the filing.

Please feel free to contact me if you have questions.

In accordance with Regulation 23, Section 7.A., this filing may not be implemented until 20 days after the requested amendment(s) and/or information is received.
Sincerely,
Becky Harrington

Objection Letter

Objection Letter Status	Pending Industry Response
Objection Letter Date	04/08/2009
Submitted Date	04/08/2009
Respond By Date	

Dear Kelly Bennett,

This will acknowledge receipt of the captioned filing.

Objection 1

- NAIC Loss Cost Filing Document for OTHER than Workers' Comp (Supporting Document)

Comment: This form is required with all rate change filings.

Objection 2

- Actuarial Memorandum (Supporting Document)
- Exhibits (Supporting Document)

Comment: Rule/Regulation 23, Section 7 (A)(2)(c) requires that if the methods used in this filing differ from those used in the insurer's last rate filing for this coverage in Arkansas, or if the Arkansas methods differ from those used countrywide, that an explanation of the differences be attached.

Explain the decision to calculate separate wind/non-wind premiums and loss ratios. Explain how the percentage of premiums allocated to each was determined.

Objection 3

- Actuarial Memorandum (Supporting Document)
- Exhibits (Supporting Document)

Comment: Explain the use of a CAT wind provision and a regional CAT wind risk load.

The previous wind risk load only included the states of AR, CO, KS, MO, NE, and OK. Several more states have been added. Explain the use of the additional states and why we should allow them.

As a general rule, we have not been allowing the use of wind models in rate development for our state. Provide a copy of the model and input data.

Please feel free to contact me if you have questions.

In accordance with Regulation 23, Section 7.A., this filing may not be implemented until 20 days after the requested amendment(s) and/or information is received.

Sincerely,

Becky Harrington

Supporting Document Schedule Item Changes

Satisfied -Name: NAIC Loss Cost Filing Document for OTHER than Workers' Comp

Comment:

No Form Schedule items changed.

No Rate/Rule Schedule items changed.

Response 2

Comments: There are 3 primary reasons why we have revised our rate making procedure to determine a non-wind and a wind indication separately. Separating the indications allows us to get a better handle on the nature of our losses. A large non-wind indication may indicate a need to review our underwriting standards, while a large wind/hail indication may indicate a need to review our spread of risk. Looking at the types of losses individually give more information than just adequacy of the rates. The second reason to split the indications is the application of credibility. Since we are looking at the wind/hail loss potential over a longer time horizon, we can consider the loss experience fully credible. The non-wind losses do not reach the full credibility standard, and are therefore credibility weighted with the trended permissible loss ratio. Keeping these losses separated allows us to accurately apply the proper credibility standards. Finally, since a risk load is applied to the wind/hail losses, we do not want the permissible loss ratio underlying that part of the indication to include a profit provision. Splitting the indications allows for the permissible loss ratio with a profit provision to underlie the non-wind indication, and for 1 minus the expense ratio (excluding profit provision) to underlie the wind/hail indication.

Premiums were allocated based on 2007 data from the last filing's rate level indication. The ratio of non catastrophe losses to total losses was used to calculate non-wind premium. For instance, if 65% of losses were not catastrophic in the prior rate review, then 65% of premium in the current review is allocated to non-wind. Wind premium is the difference between overall premium and non-wind premium. For the current Arkansas review, 60.5% of premium is allocated to non-wind.

Related Objection 1

Response 3

Comments: The additional states in the region definition lowers the wind risk load because the old region definition (AR, CO, KS, MO, NE, OK) were five of the most wind prone states. Therefore the state was being penalized for being grouped in with states that had higher wind risks. The region now includes every state in the Midwest that has any tornado activity. Exhibit B displays the wind risk load using states in the prior region as well as the risk load using the current larger grouping of states.

The model used was the AIR version 9.5 Severe Storm model, which was run on our ANPAC Form SH-3 book of business as of 12/31/2007. AIR will not allow us to provide a copy of the model because it is confidential. However, policy and location input data is attached with this supplement. Several adjustments were made to the modeled output. First, the results for each county were averaged with the results for each county within a 60 mile radius in an effort to smooth the results and not have a significant jump in the modeled results for proximate counties. The results were also adjusted for a 3% loss trend and adjusted for Loss Adjustment expenses.

We are using modeled wind losses in our indications because the historical catastrophe experience is extremely variable which leads to large swings in our indications. Using a model allows for less sporadic indications since it aggregates thousands of simulated events and is a more long term approach. Exhibit C displays the variability in our catastrophic experience in Arkansas. In fact, the losses we experienced in 2008 alone were greater than the total losses in our 15 year experience period that was used to derive our previous catastrophe provision

AMERICAN NATIONAL PROPERTY AND CASUALTY COMPANY
RENTAL OWNERS PROGRAM
GENERAL RULES

GENERAL PROVISIONS

100. The Rental Owners Program provides property and liability coverages using the forms and endorsements which are filed by the Company. This manual contains the rules and rating procedures for writing the Rental Owners Policy.

101. The rules, rates, forms, and endorsements filed by the Company for each coverage shall govern in all cases.

ELIGIBILITY

110. A Rental Owners Policy can be written for:

- A one- or two-family non-owner occupied dwelling which is used exclusively for private residential purposes; or
- A dwelling under construction for one- or two-family occupancy not to be occupied by the owner; or
- A single-family non-owner occupied unit within a town house which is used exclusively for private residential purposes.
- A three- or four-family dwelling which is used exclusively for private residential purposes.

111. A Rental Owners Policy shall not be issued to cover any:

- condominium;
- modular home (except as explicitly permitted in the New Business Underwriting Guidelines);
- manufactured home;
- do-it-yourself construction home;
- trailer home;
- house trailer;
- seasonal dwelling;
- dwelling which has been moved from one location to another; or
- vacant or unoccupied dwellings.

POLICY TERM

120. The Rental Owners Policy is a continuous renewal policy written for a one-year term. The policy is extended for successive policy terms by payment of the required continuation premium for each successive policy term based upon the premiums in effect on the renewal date.

PREMIUM PAYMENT

Electronic Transfer Method of Payment

130. **EASY PAY - *THE CHECKLESS WAY*®** - Insureds may elect to pay their premium by automatic, electronic monthly withdrawals from a checking or savings account. An authorization form must be completed by the insured and submitted to the Home Office along with the minimum required down payment for a new business application. A down payment is required when initiating an Easy Pay Plan and when adding a policy to an existing Easy Pay Plan.

No installment charge is applied to Easy Pay withdrawals.

The minimum required down payment for a new business application is one month's premium (1/12th of the total term premium for twelve-month policies).

The down payment requirement for Easy Pay is waived in these circumstances:

1. If the insured account qualifies under Underwriting Payment Plan Eligibility Category I.
2. If the insured has been an auto or homeowner policyholder for one full year or more.
3. If, at renewal, the request is submitted 60 days in advance of the renewal, and the current term is paid in full.

Non-Bound Trial Applications - No down payment should be collected for non-bound trial applications.

Other Methods of Payment

131. Cash with Application – All new business applications and reinstatement applications, where Easy Pay is not selected as the payment method or where the bill is to be paid by the mortgagee, must be sent to the Home Office accompanied by a down payment remittance. A remittance of $150 or one-half of the annual premium, whichever is greater, is required. If the remittance is less than the full amount due and the amount due is more than $25, a $5 installment charge will be applied.

Non-Bound Trial Application - No down payment should be collected for non-bound trial applications.

132. Renewal Payment - The renewal premium is due and payable to the Home Office on or before the policy expiration date. The policyholder may elect to pay the renewal premium in two or four installments. Each installment will include a $5 installment charge as shown on the renewal billing notice. If the amount due is less than $25, the installment charge will be waived.

133. Minimum Premium Rule - The total annual policy **minimum premium** is $150.

134. Specific procedures regarding the number and timing of billings, length of time between billings and any applicable grace periods are outlined in the Company billing manual.

POLICY CHANGES

140. The limits of liability may be increased or decreased or coverages may be added during the term of the policy. The adjusted premium is computed on a pro rata basis subject to all the manual rules.

141. Any policy change that takes place during the term of the policy will be shown by an amended Declaration.

142. If a policy is amended and results in a total amount due of $5 or less, such adjustment may be waived. For policies with no balance due a return premium of $5 or less shall be allowed only at the insured's request.

CANCELLATION

150. All cancellations shall be computed pro rata.

151. If cancellation of a policy results in a return premium of $5 or less, no refund will be made unless requested by the insured.

ASSIGNMENT

160. Subject to all rules of this manual and any necessary adjustment of premium, an existing Rental Owners Policy may be amended to reflect:

- Assignment from one insured to another in the event of transfer of title of the dwelling. An application on the new owner must be submitted to the Home Office and approved by the Underwriting Department prior to the assignment being valid; however, agent binding authority does pertain to this situation.

REINSTATEMENTS

170. A policy which has expired or been terminated by cancellation for nonpayment may be reinstated by completion of any required form and payment of the necessary premium if the risk is acceptable from an underwriting standpoint.

171. Policies out of force over 45 days require a new business application to be submitted regardless of the reason for termination. In these cases, a new annual policy term is given.

172. Applications may not be submitted for policies cancelled for underwriting reasons without prior approval from the underwriter or proper underwriting management.

MANDATORY COVERAGES

180. It is mandatory that both Section I, Property, and Section II, Liability, be written on all policies.

181. It is not permissible to cancel any of the mandatory coverages in the policy unless the entire policy is cancelled.

WHOLE DOLLAR ROUNDING

190. The premium for each coverage shall be rounded to the nearest whole dollar after each step in the premium calculation.

191. A premium involving $.50 or more shall be rounded to the next higher whole dollar.

192. This procedure shall apply to all interim premium adjustments, including endorsements, or cancellations requested by the insured.

POLICY FORM AND DESCRIPTION OF COVERAGES

200. The following is a general description of the coverages provided by the individual Rental Owners Forms. The policy and forms should be consulted for exact contract conditions.

SECTION I

210. Section I - Physical Damage consists of the following coverages:

Coverage A - Dwelling
Coverage B - Other Structures
Coverage C - Personal Property
Coverage D - Fair Rental Value

211. **Form 1 (SD-1) - Named Peril Form** - This form covers the dwelling, other structures, personal property, and fair rental value against the following perils with certain exceptions:

- Fire and Lightning
- Windstorm or Hail
- Explosion
- Riot or Civil Commotion
- Aircraft
- Vehicles
- Smoke
- Vandalism or Malicious Mischief
- Theft
- Burglary
- Collapse
- Volcanic Eruption

212. **Form 3 (SD-3) - Special Form** - This form covers the dwelling, other structures, personal property, and fair rental value against risks of direct physical loss, with certain exceptions.

213. Inflation Coverage - Applicable to both the Form 1 and Form 3. Each year at the policy renewal, the Coverage A - Dwelling amount may be increased depending upon the building cost index for the specified area. The limits of liability for Coverage B - Other Structures and Coverage C - Personal Property will be increased at the same percentage as Coverage A.

SECTION II

220. Section II - Liability consists of the following coverages:

Coverage E - Business Liability
Coverage F - Premises Medical Payments

221. Coverage E - Business Liability covers payment on behalf of any insured all sums which the insured shall become legally obligated to pay as damages because of bodily injury, personal injury, or property damage caused by an occurrence and which arises from the ownership, maintenance, or use of the insured premises.

222. Coverage F - Premises Medical Payments covers medical expenses incurred by persons, other than the insured and tenant, who sustain bodily injury caused by an accident occurring on the insured premises.

LIMITS OF LIABILITY

230. The basic limits of liability under the Rental Owners policy for Section I Coverages are:

	Form 1		Form 3	
Coverages	Description	Amount of Coverage	Description	Amount of Coverage
Coverage A: Dwelling	Actual Cash Value Named Peril	Limit Selected	Replacement Cost All-risk	Limit Selected
Coverage B: Other Structures	Actual Cash Value Named Peril	10% of Coverage A	Replacement Cost All-Risk	10% of Coverage A
Coverage C: Personal Property	Actual Cash Value Named Peril	5% of Coverage A	Actual Cash Value All-Risk	5% of Coverage A
Coverage D: Fair Rental Value	Actual Loss Sustained	12 Month Limit	Actual Loss Sustained	12 Month Limit
Additional Coverages	Collapse	ACV Loss	Collapse	RCV Loss
	Debris Removal	Actual Loss	Debris Removal	Actual Loss
	Fire Department Service	$500	Fire Department Service	$500
	Outdoor Antenna & Satellite Dishes	$500	Outdoor Antenna & Satellite Dishes	$500
	Personal Effects	$100/Person	Personal Effects	$100/Person
	Property Removed	Actual Loss	Property Removed	Actual Loss
	Reasonable Repairs	Actual Loss	Reasonable Repairs	Actual Loss
	Trees, Shrubs, Plants, & Lawns	$500/Plant	Trees, Shrubs, Plants, & Lawns	$500/Plant
	Volcanic Eruption	ACV Loss	Volcanic Eruption	RCV Loss

231. The basic limits of liability under the Rental Owners policy for Section II coverages are:

Coverages	Description	Form 1 Amount of Coverage	Form 3 Amount of Coverage
Coverage E: Business Liability	Occurrence	$100,000/occurrence $200,000 annual aggregate	$300,000/occurrence $600,000 annual aggregate
Coverage F: Premises Medical Payments	Expenses within 3 years	$1,000 per person	$2,000 per person
Additional Coverages	Claims Expenses	Actual Expenses	Actual Expenses
	First Aid Expenses	Actual Expenses	Actual Expenses
	Personal Injury	Policy Limits	Policy Limits

232. Additional limits of coverage are available as described in the Rate Section of the manual.

CONSTRUCTION TYPE DEFINITIONS

300. Buildings should be classified according to the following construction type definitions.

Note: Mixed Construction – A dwelling shall be classified as frame where the total exterior wall area exceeds 33 1/3% of frame construction. Otherwise classify as Masonry Veneer.

301. Frame - A dwelling with exterior walls of combustible construction, including walls with wood, metal, stucco, or metal lath and plaster on combustible supports.

302. Masonry Veneer - A dwelling with exterior walls of combustible construction usually wood frame, veneered with masonry materials (brick or stone).

303. Masonry - A dwelling with exterior walls of solid brick, concrete, gypsum block, hollow concrete block, adobe, stone, tile, or similar noncombustible materials; however, floors and roof are constructed of combustible material (disregard floors directly on the ground).

304. Siding – A dwelling with exterior walls of combustible construction, including walls with Vinyl, Steel, Aluminum, or Wood Siding on combustible supports.

305. Fire Resistive - A dwelling with exterior walls, floors, and roof constructed **entirely** of masonry or fire resistive materials and **supported** by metal, asbestos, gypsum or other like material. Materials with a Fire Resistance Rating of not less than one-hour are considered fire resistive. A dwelling of wood frame construction is not Fire Resistive.

PROTECTION CLASS DETERMINATION

400. All policies shall be rated according to the protection classification provided by the Insurance Services Office. Any exceptions are shown in the state exception pages.

401. If there is a change in the Protection Class that affects the rate on an existing policy, the premium shall not be adjusted until the first subsequent renewal.

Exception: At the insured's request, existing policies in effect not more than 45 days prior to the effective date of the protection class change, may be adjusted on a pro rata basis to the new premium on or after the effective date.

PREMIUM DETERMINATION

500. Calculation of Adjusted Base Premium

In this order, multiply the base rate by the following if the adjustment is applicable. Round each individual adjustment to three decimal places. After all adjustments are applied, round to the nearest whole dollar.

1. Determine base rate from Base Rates table according to zone, number of family, protection class, and construction type.
2. Amount of Insurance factor.
3. Deductible adjustment factor.
4. Utilities/Roof Rating Plan factor.
5. Protective Device Credit factor.
6. Claim Free Plus factor.
7. Non-Weather Related Claims factor.
8. Log Home Surcharge factor

501. Total all miscellaneous and endorsement premium changes or credits. All miscellaneous and endorsement premiums are rounded to the nearest whole dollar. However, the minimum premium for any one endorsement is $1.

Rating Example:

(Actual premiums/rates were chosen arbitrarily for illustration purposes only.)

$120,000 house ($350 base rate, 1.073 Amount of Insurance factor)
$1,000 deductible (0% charge)
Less than 1 year old home (Utilities/Roof Rating Plan Discount – 30% credit)
Endorsement: Contents Replacement Cost coverage (12% of Adjusted Base Premium)
Endorsement: Earthquake coverage (.40/Thosand Charge)

Base Rate	$350
X Amount of Insurance factor	1.073
	$375.550
X Deductible Adjustment factor	1.00
	$375.550
X Utilities/Roof Rating Plan factor	0.70
	$262.885
Adjusted Base Premium	$263

Endorsement		
Contents Replacement Coverage	$263 x .12 =	$32
Earthquake Coverage	120 x .40 =	$ 48
	Total Policy Premium	$343

INTERPOLATION OF MANUAL PREMIUMS/Factors

510. .The Amount of Insurance factor for a policy amount, in excess of the minimum policy amount, not shown in the Amount of Insurance pages may be obtained by interpolation.

511. The method and an example of interpolation follows:

A factor is desired for a policy amount of $52,000 which falls between $50,000 and $55,000 shown in the Amount of Insurance pages. In other words, the desired amount is $2,000 in excess of the $50,000 shown.

	Policy Amounts Shown	Amount of Insurance Factors Shown
(1)	$ 55,000	$0.775
	$ 50,000	$0.725
	$ 5,000 - Difference (Amount)	$0.050 - Difference (Factor)
(2)	$ 2,000 - Additional (Amount) x	$0.050 - Difference(Factor) = $0.020
	$ 5,000 - Difference (Amount)	
(3)	$0.725 (Factor for $50,000)	
	$0.020 (Factor for additional $2,000)	
	$0.745 (Factor for $52,000)	

A similar method for interpolation is used to determine deductible adjustments for policy amounts not shown in the Deductible Adjustment pages. Deductible adjustments are rounded to the nearest whole percent, and then converted to a rating factor.

512. Note - When the premium is obtained by interpolation, the limits for Section I Coverages B and C should be revised in relation to the basic limit of liability on the dwelling. See Rule 230.

MISCELLANEOUS COVERAGES AND ENDORSEMENTS

600. Refer to the Miscellaneous Rate Pages in the Rental Owners manual for each state to locate the explanations and premiums for those additional coverages and endorsements offered.

I. Miscellaneous Coverages, Credits, and Charges

A. PROTECTIVE DEVICE CREDITS

A premium credit may be applied for the protective devices listed below. A full description of each protective device must be shown on the application.

The following premium credits apply for each of the following devices which are properly installed and maintained:

1. Local burglar alarm covering all windows and exterior doors. 5%
2. Burglar alarm as in 1, above, reporting to central station or police department. 10%
3. Fire alarm reporting to central station or fire department. 10%

Any combination of the above credits is allowed but maximum total credit cannot exceed 15%.

Applicable to All Policy Forms.

B. CLAIM FREE PLUS

An insured will receive a Claim Free Plus discount on his/her dwelling policy based upon the length of time the insured has been claim free and his/her current ATTRACT Risk Score. The length of time is calculated as the number of years since the date of the last claim and the effective date of the policy or the effective date of reinstatement for a policy with a lapse in coverage. If a claim exists with an established reserve, the insured is considered claim free as long as no payment has been made on the claim. The appropriate Claim Free Plus discount shall be applied according to the schedule below:

ATTRACT Risk Score	***Number of Years Claim Free***		
	0-2	3-5	6+
619 and below	0%	10%	15%
620 – 674	22%	30%	34%
675 – 729	26%	33%	37%
730 – 769	32%	40%	43%
770 – 809	35%	41%	46%
810 – 854	39%	44%	49%
855 – 899	42%	47%	51%
900 – 949	45%	50%	54%
950 and above	48%	53%	56%
No Hit/No Score	35%	41%	46%

Annually, account Risk Scores will be updated. If such update results in a more favorable discount level to the insured, as detailed in the chart above, then the more favorable discount level will be applied. If such update results in a less favorable discount level, the current (more favorable) discount level will continue to apply. However, under certain circumstances when necessary, such as changing the Risk Score model or receiving a calculated Risk Score for a prior No Match or No Score, a less favorable discount level can result and will be applied.

C. UTILITIES/ROOF RATING PLAN

A premium adjustment will be made on all Rental Owner Dwelling forms depending on the age of the home and the calendar year that any of the following components have been newly installed or completely upgraded:

<u>Heating</u>

Complete replacement of the entire heating system, not including the ductwork or floor/ceiling registers

All systems must be installed by a qualified contractor to meet or exceed local building codes.

Cooling

Complete replacement of the entire cooling system, not including the ductwork or floor/ceiling registers.

All systems must be installed by a qualified contractor to meet or exceed local building codes.

Roof

A. To determine age of roof - Complete replacement or overlay of the entire roof by a qualified contractor and installed to meet or exceed local building codes.

B. Roof Construction Rating Factors

1. A credit (as listed below) applies to roofs constructed of concrete tile, clay tile, slate, or composite wood fiber/cement.

2. A surcharge (as listed below) applies to roofs constructed of wood shake, wood shingle, or a composition overlay to a wood shake roof.

3. Roof coverings meeting the impact resistance of the Underwriters' Laboratories testing criteria of U. L. Standard 2218 are eligible for a credit, as listed below. **Note:** The credit is not available when wind and hail coverage is excluded from the policy.

The applicable adjustments are added together to determine the total premium adjustments for the rating plan. The different adjustments depend on the number of years since the home was built or since the heating unit, cooling unit or roof was newly installed. The maximum discount allowed is 50%.

PREMIUM ADJUSTMENTS

40th and all additional	0	0	0	0	0	0	0	0	0	+70%

If the year the dwelling was occupied is different from the year it was completed, the later year shall apply.

D. **NON-WEATHER RELATED CLAIMS RATING PLAN**

The appropriate surcharge shall be applied according to the schedule below:

Number of Qualified Paid Claims in the last 3 years			
0 or 1	2	3	4+
0%	20%	45%	75%

The number of paid claims will be determined by the number of qualified paid claims the policyholder has had in the last 3 years. The length of time is calculated as the 36 months prior to the effective date of the policy or the effective date of reinstatement for a policy with a lapse in coverage. A qualified claim is any non-catastrophe or non-weather related claim, which results in a net paid loss during the 3-year period. Losses, which have payments under Medical Coverage only, are not considered to be qualified claims.

E. **OPTIONAL LIABILITY LIMITS**

The premium pages include Coverages E (Business Liability) and F (Premises Medical Payments) limits of $100,000/$1,000 for Form 1 and $300,000/$2,000 for Form 3. If other limits are desired, the basic premium is adjusted according to the table below. In all cases, the limits for Coverages E and F must be the same for all exposures covered under the policy. Coverage F limits are "each person" limits.

The additional premium is developed from the tables below:

Premium Adjustment
Form 1

Coverage E - Business Liability Limits	1 Family	2 Family	3 Family	4 Family
$100,000	Base	Base	Base	Base
300,000	25	31	34	35
500,000	45	56	61	63
1,000,000	95	119	128	133

Premium Adjustment
Form 3

Coverage E - Business Liability Limits	1 Family	2 Family	3 Family	4 Family
$100,000	-25	-31	-34	-35
300,000	Base	Base	Base	Base
500,000	20	25	27	28
1,000,000	70	88	95	98

Premium Adjustment
Form 1

Coverage F – Premises Medical Payments Limits	1 Family	2 Family	3 Family	4 Family
$ 1,000	Base	Base	Base	Base
2,000	1	1	1	1
5,000	2	3	3	3

Premium Adjustment
Form 3

Coverage F – Premises Medical Payments Limits	1 Family	2 Family	3 Family	4 Family
$ 1,000	-1	-1	-1	-1
2,000	Base	Base	Base	Base
5,000	1	1	1	1

F. **INCREASED PERSONAL PROPERTY LIMITS**

When the limit of liability for Coverage C is increased, the additional premium shall be $1.48 per $1,000 of insurance.

G. **INCREASED OTHER STRUCTURES LIMITS**

The basic policy provides a 10% of Coverage A extension applicable to Coverage B, Other Structures, located on the residence premises. The structure must be identified and the specific amount of additional coverage must be shown.

When the limit of liability for Coverage B is increased, the additional premium shall be $2.46 per $1,000 of insurance.

H. **LOG HOME SURCHARGE**

For dwellings constructed of full logs, a 75% surcharge applies. The surcharge does not apply to dwellings with log siding.

Applicable to All Policy Forms.

II. **Optional Endorsement Coverages**

A. **Section I - Property Damage Coverages**

1. **SD-3291 - CONTENTS REPLACEMENT COST COVERAGE**

Coverage for Personal Property may be extended to include the full cost of repair or replacement without deduction for depreciation, subject to the terms of the contents replacement cost endorsement.

When this coverage is provided without Modified Replacement Cost Coverage, Coverage A must be 100% of the dwelling replacement cost. The additional annual premium for this coverage is determined as follows:

Form 3 - Multiply the total adjusted base premium by 7% (round to the nearest dollar):

Policy	Minimum Additional Premium
Form 3	$19

Applicable to Form 3 Only.

2. **SD-3975 - MODIFIED REPLACEMENT COST**

When a home's market value is 80% or less of its replacement cost, then Modified Replacement Cost will apply. This endorsement revises the Loss Settlement provision for Coverage A allowing us to repair and replace damage to a dwelling with commonly used construction materials and methods. The additional premium is determined by multiplying the total adjusted base premium by the following:

Replacement Cost Policy Amount Factor		Replacement Cost Deductible Amount Factor				
÷	X	÷	X	MRC Credit Factor	-	1
Desired Coverage Policy Amount Factor		Desired Coverage Deductible Amount Factor				

MRC Credit Factors for Coverage A Amounts Above $150,000

>70% but ≤ 80%	0.89
>60% but ≤ 70%	0.87
>50% but ≤ 60%	0.85
>40% but ≤ 50%	0.82
>30% but ≤ 40%	0.79
>20% but ≤ 30%	0.75
≤ 20%	0.70

MRC Credit Factors for Coverage A Amounts At or Below $150,000

>70% but ≤ 80%	0.96
>60% but ≤ 70%	0.93
>50% but ≤ 60%	0.90
>40% but ≤ 50%	0.87
>30% but ≤ 40%	0.85
>20% but ≤ 30%	0.82
≤ 20%	0.79

Applicable to Policy Form 3 Only.

3. **SD-9806 - STORED PERSONAL PROPERTY**

Under Coverage C (Personal Property) coverage may be provided for property owned by the named insured and stored on the residence premises. The following premiums apply:

Policy Deductible	Premium
$500/1% Wind/Hail	$9
$1,000 or $1,000/1% Wind/Hail	8
1% of Coverage A	7
$2,000 or $2,000/1% Wind/Hail	6
$3,000	5
2% of Coverage A	4
$5,000	3

Applicable to All Policy Forms.

4. **SD-9292 - DWELLING UNDER CONSTRUCTION**

A Rental Owners policy may be issued to cover a dwelling under construction if the construction will be completed and the dwelling occupied within 120 days from the date construction begins. The effective date of the policy must be the date construction is actually started. If the dwelling has a basement, however, the effective date must be the date construction begins above the level of the lowest basement floor. The amount of coverage provided is provisional.

Upon occupancy or completion, whichever is sooner, Home Office must be notified and the policy will be amended to reflect any adjustments. (Refer to further requirements under the eligibility section of the manual.)

To determine the dwelling under construction credit, multiply the adjusted base premium by 50%. The basic premium shall be reduced 30% until construction is completed.

Protective Device Credit and Utilities/Roof Rating Plan do not apply to a policy that receives the Dwelling Under Construction credit.

Applicable to All Policy Forms.
Not Applicable for Manufactured Homes.

5. **SD-9781 - THEFT COVERAGE ON DWELLING UNDER CONSTRUCTION**

For an additional premium, theft coverage in or to a newly constructed dwelling prior to occupancy is available if the dwelling is fully enclosed and capable of being locked. Coverage terminates 120 days after completion or when occupied, whichever occurs first.

The Dwelling Under Construction Endorsement, SD-9292, must be present in order to add endorsement.

The premium will not be refunded if this endorsement is cancelled.

Policy Deductible	Premium
$500/1% Wind/Hail	$13
$1,000 or $1,000/1% Wind/Hail	11
1% of Coverage A	10
$2,000 or $2,000/1% Wind/Hail	9
$3,000	8
2% of Coverage A	7
$5,000	5

Applicable to All Policy Forms.

6. **SD-9878 - EARTHQUAKE COVERAGE (10% Deductible)**

This endorsement amends the policy to include coverage for direct physical loss to property described in Coverages A, B, and C caused by earthquake. When earthquake coverage is provided, it does not increase the limits of liability stated in the policy and does not include the costs of filling land.

The deductible for loss covered under this earthquake endorsement is the amount determined by applying the deductible percentage of **10%** separately to each of the following:

(a) the limit as shown on the Declarations for Coverage A - Dwelling;
(b) the limit as shown on the Declarations for Coverage B - Other Structures;
(c) the limit as shown on the Declarations for Coverage C - Personal Property

In addition, the minimum deductible amount for any one covered loss under Coverages A, B, or C shall be $500 for each coverage that applies to the loss.

NOTE: SPECIAL BINDING AUTHORITY RESTRICTIONS FOR THIS ENDORSEMENT (new or renewal business)

For a period of 30 days, coverage may not be bound on any house within 100 miles of the epicenter of an earthquake measuring 5.0 or greater on the Richter Scale.

The exclusion applying to exterior masonry veneer may be deleted for the additional premium shown below under the All Others category.

The premium for this coverage is:

7. **SD-91260 - EARTHQUAKE COVERAGE (15% Deductible)**

This endorsement amends the policy to include coverage for direct physical loss to property described in Coverages A, B, and C caused by earthquake. When earthquake coverage is provided, it does not increase the limits of liability stated in the policy and does not include the costs of filling land.

The deductible for loss covered under this earthquake endorsement is the amount determined by applying the deductible percentage of **15%** separately to each of the following:

(a) the limit as shown on the Declarations for Coverage A - Dwelling;
(b) the limit as shown on the Declarations for Coverage B - Other Structures;
(c) the limit as shown on the Declarations for Coverage C - Personal Property

In addition, the minimum deductible amount for any one covered loss under Coverages A, B, or C shall be $750 for each coverage that applies to the loss.

NOTE: SPECIAL BINDING AUTHORITY RESTRICTIONS FOR THIS ENDORSEMENT (new or renewal business)

For a period of 30 days, coverage may not be bound on any house within 100 miles of the epicenter of an earthquake measuring 5.0 or greater on the Richter Scale.

The exclusion applying to exterior masonry veneer may be deleted for the additional premium shown below under the All Others category.

Applicable to All Policy Forms.

8. **SD-9304 - FIRE DEPARTMENT SERVICE CHARGE**

The limit of $500 provided under the Rental Owner policy may be increased at an additional rate of $2 per $500 of coverage.

Applicable to All Policy Forms.

9. **SD-9807 - VACANCY COVERAGE**

Form 1 and Form 3 restrict coverage for vandalism and glass breakage if the dwelling has been vacant for more than 30 consecutive days. For an additional premium, this limitation may be deleted.

Policy Deductible	Premium
$500/1% Wind/Hail	$49
$1,000 or $1,000/1% Wind/Hail	41
1% of Coverage A	39
$2,000 or $2,000/1% Wind/Hail	36
$3,000	32
2% of Coverage A	30
$5,000	18

Applicable to All Policy Forms.

10. **SD-9833 - OTHER STRUCTURE RESTRICTION**

This endorsement allows dwellings to be insured that have other structures on the residence premises which are in poor condition. These structures are specifically identified on the endorsement and coverage is excluded.

A photograph of each excluded other structure is required.

No additional premium or discount is applicable to this endorsement.

Applicable to All Policy Forms.

11. **SD-91412 – ORDINANCE OR LAW COVERAGE**

For the additional premium, covered losses that are at least 50% or more of the Coverage A limit for Policy Forms 1 and 3 will be settled on the basis of any ordinance or law that regulates the construction, repair or demolition of the property. The amount of coverage provided by this endorsement is 25% of Coverage A limit.

The additional premium for this endorsement is listed below:

Home Completed and First Occupied	Premium Adjustment	
	Zone 1	Zone 2
Current Calendar Year	0%	0%
First Preceding Year	2%	3%
Second Preceding Year	3%	6%
Third Preceding Year	5%	9%
Fourth Preceding Year	6%	12%
Fifth and All Preceding Years	8%	15%

Zone 1 – Remainder of State

Zone 2 – Clay, Craighead, Crittenden, Greene, Mississippi, Poinsett Counties

Applicable to All Policy Forms.

12. **SD-9819 - CONTRACTORS' INTEREST**

The contractor's interest in the building only is covered with this endorsement. No additional premium is applicable for this coverage.

Applicable to All Policy Forms.

B. **Section I and II**

1. **SD-9041 - ADDITIONAL INSURED – INSURED PREMISES**

(Other Than Contractors)

This endorsement extends the definition of "insured" to include the person or persons named on the endorsement with respect to Coverages A - Dwelling, B - Other Structures, E - Business Liability, and F - Premises Medical Payments. No additional premium is applicable for this coverage.

Applicable to All Policy Forms.

2. **SD-9820 – THREE- TO FOUR-FAMILY RESIDENCE PREMISES ENDORSEMENT**

This endorsement revised the policy definitions of "residence premises" and "insured premises" to include a three- or four-family dwelling.

Applicable to All Policy Forms.

AMERICAN NATIONAL PROPERTY AND CASUALTY COMPANY
AMERICAN NATIONAL GENERAL INSURANCE COMPANY
ALL PROPERTY LINES
EXCEPTIONS TO THE ISO PROTECTION CLASS RULES

I. ISO changes are to be used with the announced effective date unless a more favorable class applies due to the specific exception or Protection Class applies.

II. For subscription fire departments, if a copy of the paid fire receipt is not furnished to the Home Office before the renewal processes, the policy will be changed to be Protection Class 10 as they are considered as having no qualified fire response, If no paid fire receipt is received with new business, the application will be rejected.

III. The following exceptions apply to Homeowners and Rental Owners only.

A. Suburban Protection Plan - Properties located in Class 9 or 10 area within five miles of a Class 1-8 city and any fire department will respond and ALL of the following criteria is met, should be rated as follows:

Class 7A - The basic premium for these risks is determined by applying the factor of 1.10 to the otherwise applicable Class 7 premium.

1. The property is located within a subdivision (defined below) or three other homes within 500 feet.
2. The property is located within five miles of the primary responding fire department.
3. The property is within 1,000 feet of a standard fire hydrant or the fire department has the capability to transport a minimum of 3,000 gallons of water on the initial response.

Class 8A - The basic premium for these risks is determined by applying the factor of 1.10 to the otherwise applicable Class 8 premium.

1. The property is located within a subdivision (defined below) or three other homes within 500 feet.
2. The property is located within five miles of the primary responding fire department.
3. The property is over 1,000 feet to a hydrant and fire department cannot transport 3,000 gallons of water.

NOTE: A subdivision is defined as a planned/named subdivision having three homes or more and located within five miles of a responding fire department. If a risk located within a planned subdivision, a part of which is located within the five mile limit, the entire subdivision will be considered to be within the five mile limit. **Only risks with paid fire receipts (when applicable) will receive the improved protection class.**

NOTE: Form UH-126 must be completed and submitted to the Home Office when a risk qualifies for this exception rule. The exception cannot be given unless the form is received.

B. Communities or Subdivisions within Fire Districts

	County	Class
Beaver Lake FD (the following two subdivisions only)		
Beaver Shores and Prairie Creek Subdivision	Benton	05
Bella Vista Village	Benton	05
Siloam Springs FD (the following two subdivisions only)

Supplemental Memorandum

The purpose of this supplement, filing 03-ROP-09-0135, is to provide the additional information requested by the department on 4/27/2009. To accommodate both objections one and two, we are reverting back to our prior methods of developing a rate level indication. This memorandum and accompanying exhibits describe the underlying data and ratemaking methodologies used to develop our overall Homeowners indication of 14.4%. We are also using full 2008 data experience instead of half year.

Exhibit I – Rate Level Indications - Rate level indications are displayed on Page 1 of this exhibit. The trended ultimate loss and LAE ratio for each group is calculated as five years of trended ultimate loss and LAE divided by five years of trended earned premium at present rates (EPPR). Since our experience is not fully credible for some forms, the trended ultimate loss and LAE ratio is credibility weighted with our trended permissible loss and LAE ratio. The trend period used for the permissible loss and LAE ratio is 1 year. The standard for full credibility is 40,000 earned house years.

On Page 2, five years of Arkansas experience are developed by form. The earned premiums for each year are net of write-off, and earthquake and have been adjusted to current rate levels. The resulting EPPR are adjusted for premium trend. Accident year losses are valued as of 12/31/08. The accident year incurred losses exclude catastrophe losses for all forms. The losses were then trended, developed to ultimate, and adjusted for LAE. Catastrophe losses are the sum of such losses by zone, which are calculated as the product of the catastrophe provision developed on Exhibit VI and earned exposures.

Exhibit II – Premium Trend - Premium trend is the product of the current amount factor and the trended amount factor. To estimate the annual change for the current amount factor, the historical APAR is fitted to a curve and the annual change is selected using a 5-point fit. The current amount factor (CAF) is calculated as the selected CAF annual change trended from the mid-point of each respective year to 6/30/08. The trended amount factor is calculated as the selected annual TAF change trended from the average earned date 6/30/08 to 7/3/10. The premium trend factors are the product of the respective current amount factors and the trended amount factors.

Exhibit III – Loss Trend - Page 1 of this exhibit displays our loss trend factors for all forms. The data supporting our loss trends is ISS Fast Track data and excludes catastrophes. Loss trend is the product of the Current Cost Factor (CCF) and the Trended Cost Factor (TCF).

The CCF adjusts the cost level existing at the midpoint of each previous accident year to the cost level existing at the midpoint of the latest experience period. The CCF is calculated as the selected CCF annual change trended from the mid-point of each respective year to 6/30/08.

The TCF adjusts the cost level at 6/30/08 to the cost level expected at 7/3/10. It is calculated by trending the selected TCF annual change to the appropriate cost date. Pages 2-4 display the annual growth factors for various exponential fits for both Arkansas and Countrywide.

Credibility-weighted factors are displayed on page 5. The credibility procedure is based on the variance of the residuals from each exponential fit. Specifically, the inverse of the variance for both Arkansas

and Countrywide is determined and the credibility weight is calculated as the proportion of each source's variance inverse to the total. For example, if the variance for Arkansas is X and the variance for Countrywide is Y, then the weight for Arkansas is calculated as (1/X)/[(1/X)+(1/Y)]. After developing the credibility-weighted change, an annual change is selected based on recent trends. At the bottom of page 5, our selected annual CCF and TCF changes are displayed for Dwelling forms.

Exhibit IV – Loss Development Factors - The loss development factors used to adjust the accident year losses in Exhibit I to ultimate cost are derived in this exhibit. Countrywide non-catastrophe data excluding Texas is used.

Exhibit V – Loss Adjustment Expense Factors - This exhibit displays the data utilized to calculate the companywide loss adjustment expense factors used in Exhibit I. Companywide calendar year data is used since Arkansas's data is not fully credible.

Exhibit VI – Catastrophe Provision - Due to the infrequent nature of catastrophes, we have developed a catastrophe pure premium using catastrophe experience from the past 16 accident years for Arkansas, Colorado, Kansas, Missouri, Nebraska, and Oklahoma. The catastrophe frequency and severity are calculated for each year from 1/1/93 to 12/31/08. The severities have been developed to ultimate using the development factors displayed in Exhibit IV and have been adjusted for the change in exposure using the annual percent change in our average policy amount. The average severity is then trended from 12/31/00 to 7/3/10 using a linear fit of our regional historical experience. The trended catastrophe pure premium is the product of the average frequency and trended severity.

Given the volatility of catastrophe experience, we have included a risk provision in our catastrophe provision. The risk provision, which is based upon a paper by Rodney Kreps published in the 1990 Proceedings of the Casualty Actuarial Society, is defined to be our target return of 15.8% multiplied by three times the standard deviation of the CPI trended regional catastrophe pure premium. Three standard deviations is used to insure that we are 99% confident that the risk provision will be adequate.

Since this catastrophe data cannot be separated by form, the catastrophe procedure is not used for Forms SH-4 and SH-6.

Exhibit VII – Estimated Effect of Investment Income - This exhibit develops the underwriting profit provision. This factor is based upon the estimated effect of investment earnings on unearned premium reserves and loss reserves. A risk-free rate of 1.5% is used based on recent returns for 2-yr treasury notes. The risk-free rate of return is used so that policyholders will not be subject to investment risk. The tax rate shown was computed as described on Page 3 of this exhibit.

Exhibit VIII – Permissible Loss and LAE Ratio - This exhibit develops our actual underwriting expense, by account, for three years. This data, combined with the allowance for underwriting profit developed in Exhibit VII and a contingency factor, allows the calculation of a permissible loss and LAE ratio for Exhibit I.

Fire Protection Impact Statement
American National Property And Casualty Company
American National General Insurance Company
Homeowners
Rental Owners

Exceptions to the ISO Protection Class Rules

Rule II: Subscription Fire Departments

By making available lower insurance premiums to applicants that purchase fire department service (by subscription) and require a paid fire receipt with their renewal, we are also putting more dollars (subscription payments) into the hands of their serving fire department(s).

Rule III: Suburban Protection Plan (Rule A)

All of us know how devastating a fire, accident, or medical emergency can be to our families, our homes, and even our livelihoods and how much is dependent on our local fire departments to mitigate or prevent loss of life or property. While most people realize the vital importance of fire departments, some people already insured and especially those buying a first home may not realize that the fire protection service they support with their tax dollars (or by paid subscription) may lower their insurance premiums. By supporting their local fire protection services, those risks meeting certain criteria, can realize some return on those tax dollars even if they are fortunate enough never to have a fire, accident, or medical emergency.

Rule III: Suburban Protection Plan (Rule B)

As part of a marketing plan in the particular areas listed in Rule B, we decided to allow eligible risks in their communities to receive some reduction in their insurance premiums. By experiencing these reductions first hand, applicants come to realize the role fire protection services play in determining their insurance premiums. Through efforts of insurance companies, insurance agents and fire department media spokespersons, applicants and insureds are becoming increasingly more savvy on not only knowing which fire departments are servicing them, but even their suppression ratings.

American National Property And Casualty Company
Arkansas
Rental Owners
Actuarial Memorandum

The purpose of this filing is to implement several changes to the Rental Owners program as detailed in this memorandum and to increase the overall rate level in the state. We are proposing to increase our overall rate level by 2.29% resulting in an annual revenue effect of $11,936. The ANPAC form SH-3 to ROP SD-3 differential remains 1.2. The ANPAC form SH-3 to ROP SD-1 differential remains 1.164. This memorandum and accompanying exhibits describe the underlying data and ratemaking methodologies used to develop our overall Rental Owners indication of 31.2%.

Exhibit I – Rate Level Indications - Rate level indications are displayed on Page 1 of this exhibit. On Page 2, we bring the earned premium net of write-off and earthquake to a current rate level and adjust for premium trend. We separate the earned premium into a non-wind and a wind component. From this, we compute two separate indications, one for each peril.

On Page 3, we develop non-wind loss ratios. Accident year losses are valued as of 6/30/08. The accident year losses exclude any losses from wind or hail and any losses from catastrophes. The losses are then trended, developed to ultimate, and adjusted for LAE. A non-wind provision of $16 per exposure is added to the losses to develop the Ultimate Trended Non-Wind Incurred Losses & LAE. A Non-Wind Loss and LAE Ratio is developed by comparing the adjusted losses to the non-wind premiums. Due to the small amount of Rental Owners business in Arkansas, a provision for Section II losses is included via a Section II loss of $37 per exposure. The non-wind premium over the last four years is credibility-weighted with the Trended Permissible Loss Ratio to develop the Credibility-Weighted Non-Wind Loss Ratio. The Credibility-Weighted Loss & LAE Ratio is multiplied by the non-wind premium to find a value for Projected Losses on Page 1. We find a value for Permissible Losses by multiplying this same premium by the Permissible Loss Ratio. Comparing the Projected Losses to the permissible Losses leads to an indication for non-wind premium.

On Page 4, we develop a wind rate level indication. Our catastrophic wind provision is developed using Version 9.5 of the AIR Clasic 2 wind model, giving us a provision for loss per exposure. We then apply a factor to account for non-catastrophic wind loss, based on regional historical data. A $28 per exposure catastrophic wind risk load is also applied. These provisions give a value for the total wind provision. Comparing this provision to the Wind Earned Premium at Present Rates gives the Trended Ultimate Wind Loss & LAE Ratio.

Pages 5 through 8 display the loss ratios based on four and a half years of earned premium and losses.

Exhibit II – Premium Trend – Premium trend is the product of the current amount factor and the trended amount factor. The current amount factor is calculated as the selected annual CAF change to the average earned date 3/31/08. The trended amount factor is calculated as the selected annual TAF change trended from the average earned date 3/31/08 to 7/3/2010.

Exhibit III – Loss Trend – We have selected to use the same catastrophe pure premium and risk load as in the accompanying ANPAC Homeowners filing.

Exhibit IV – Loss Development Factors - The loss development factors used to adjust the accident year losses in Exhibit I to ultimate cost are derived in this exhibit. Countrywide non-catastrophe data excluding Texas is used.

Exhibit V – Loss Adjustment Expense Factors - This exhibit displays the data utilized to calculate the companywide loss adjustment expense factors used in Exhibit I. We have decided to use the ANPAC Homeowners' Loss Adjustment Expense Factor since the Rental Owners' Program Loss Adjustment Expense is overly influenced by the effects of hurricane Katrina, and as such is not large enough to represent the expected expenses for non-catastrophic years. Companywide calendar year data is used since Arkansas's data is not fully credible.

Exhibit VI – Catastrophe Provision – We have selected to use the same catastrophe pure premium and risk loads as in the accompanying ANPAC Homeowners filing.

Exhibit VII – Estimated Effect of Investment Income - This exhibit develops the underwriting profit provision. This factor is based upon the estimated effect of investment earnings on unearned premium reserves and loss reserves. A risk-free rate of 1.5% is used based on recent returns for 2-yr treasury notes. The tax rate shown was computed as described on Page 3 of this exhibit.

Exhibit VIII – Permissible Loss and LAE Ratio - This exhibit develops our actual underwriting expense, by account, for three years. This data, combined with the allowance for underwriting profit developed in Exhibit VII and a contingency factor, allows the calculation of a permissible loss and LAE ratio for Exhibit I.

Exhibit IX – Proposed Rating Relativities – Exhibit IX displays our present and proposed base rates by form and by zone. The base rates displayed are for frame construction with a protection class of 1. Since we do not have fully credible data for Rental Owners program, we have decided to apply a differential multiplied by ANPAC rates for base rates. We are also using ANPAC rates for construction type relativities, policy amount relativities, protection class and construction type relativities, policy amount relativities, and deductible adjustment factors. The base rates assume $150,000 of coverage A and a $1,000 base deductible for Forms SD-1 and SD-3. For other protection class/construction type combinations, the base rates are calculated using the tables shown on page 3 of the exhibit. Page 4 displays our proposed deductible adjustments, which vary by coverage amount, for forms SD-1 and SD-3. Given that we are a small company in Arkansas, we lack credible experience by coverage amount by deductible. Therefore, in setting our deductible adjustment factors, we considered competitive comparisons, the dollar differences between various deductibles, and company philosophy. The policy amount relativities for Forms SD-1 and SD-3 are displayed on pages 5 and 6 of this exhibit. Page 7 displays the adjustment for Number of Families in the unit.

Exhibit X – Rate Change History – This exhibit shows the approved rate changes for the past 5 years.
