NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of Arkansas Blue Cross and Blue Shield are presented on the basis of accounting practices prescribed or permitted by the Arkansas Insurance Department.

The Arkansas Insurance Department recognizes only statutory accounting practices prescribed or permitted by the State of Arkansas for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under Arkansas Law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures* manual, version effective January 1, 2001, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the Arkansas Insurance Department.

For reporting periods ending on December 31, 2004 and later, Arkansas Blue Cross and Blue Shield is reporting its post-employment liabilities and expenses using accounting principles generally accepted in the United States of America. These principles are governed primarily by Financial Accounting Standard 106. This departure from statutory accounting principles was approved by the Arkansas Insurance Department in a letter dated December 30, 2004 in accordance with ACA Sec 23-61-108.

Arkansas Blue Cross and Blue Shield adopted Financial Accounting Standard 158 for its 2007 fiscal year end. FAS 158 improves financial reporting by requiring an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in requiring an employer to measure the funded status of a plan as of the date of its year-end statement of financial position, with limited exceptions. For postretirement benefit plans other than pension, the benefit obligation is the accumulated postretirement benefit obligation (APBO).

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Health premiums are earned ratably over the terms of the related insurance and reinsurance contracts or policies. Expenses incurred in connection with acquiring new insurance business are charged to operations as incurred.

In addition, the company uses the following accounting policies:

Short-term investments are stated at amortized cost.

Bonds not backed by other loans are stated at amortized cost using the interest method.

Common Stocks are carried at market except that investments in stocks of uncombined subsidiaries and affiliates in which the Company has an interest of 20% or more are carried on the equity basis.

Preferred stocks are carried at cost.

2. Accounting Changes and Corrections of Errors

The Company prepares its statutory financial statements in conformity with accounting practices prescribed or permitted by the State of Arkansas. Effective January 1, 2001, the State of Arkansas adopted regulations requiring insurance companies domiciled in the State of Arkansas prepare their statutory basis financial statements in accordance with the NAIC *Accounting Practices and Procedures* manual – Version effective January 1, 2001 subject to any deviations prescribed or permitted by the State of Arkansas insurance commissioner.

A. The Company adopted Statement of Financial Accounting Standards (SFAS) No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans - An Amendment of FASB Statements No. 87, 88, 106, and 132R*, effective December 31, 2007. The Statement requires recognition of the funded status of a defined benefit plan in the statement of admitted assets, liabilities and surplus as an asset or liability if the plan is overfunded or underfunded, respectively. Changes in the funded status of a plan are required to be recognized in the year in which the changes occur, and reported in the statement of operations and changes in surplus as a separate component of surplus for SAP purposes. Further, certain gains and losses that were not previously recognized in the financial statements are required to be reported in surplus for SAP purposes; and certain disclosure requirements were changed. These changes are effective for fiscal years ending after December 15, 2006, with no retroactive restatement of prior periods. SFAS No. 158 also requires companies to measure a plan's assets and obligations that determine its funded status as of the end of the employers's fiscal year instead of the November 30 early measurement date the Company currently uses. This change is effective for fiscal years ending after December 15, 2008. The Company will adopt the measurement date provisions in 2008.

B. The Company received approval from the Department to include the other postretirement benefit obligation in accordance with *Employers' Accounting for Defined Benefit Pension and Other Postretirement Benefit Plans*, which requires accrual for non-vested employees. Statutory accounting practices prescribed by the NAIC and the Department require that other postretirement decreased surplus by approximately \$47.7 million and \$47.9 million for the years ended December 31, 2008 and 2007, respectively.

3. Business Combinations and Goodwill

The Company had no business combinations or goodwill as of December 31, 2008.

Under the tax sharing agreement, the Company pays to or receives from each subsidiary the amount, if any, by which the group's federal income tax liability was affected by virtue of inclusion of the subsidiary in the consolidated federal return. Effectively, this results in the Company's annual income tax provision being computed, with adjustments, as if the Company filed a separate return.

Prior service cost	1,819,000

For the years ended December 31, 2008 and 2007, the plan did not assume an expected return on plan assets since the plan was unfunded. The health care cost trend rate used to measure the expected cost of benefits is assumed to be the following for each year:

December 31, 2008	8.00%
December 31, 2007	8.00%

Increasing the assumed health care cost trend rate by one percentage point for all future years results in the following effect in the aggregate of service and interest cost components of benefit cost and the accumulated postretirement benefit obligation for the current year ended:

	% Incr	From	To
Aggregate Service & Interest Cost	8.35%	114,000	126,504
APBO	8.20%	2,124,000	2,343,629

Decreasing the assumed health care cost trend rate by one percentage point for all future years results in the following effect in the aggregate of service and interest cost components of benefit cost and the accumulated postretirement benefit obligation for the current year ended:

	% Incr	From	To
Aggregate Service & Interest cost	7.04%	114,000	103,436
APBO	6.91%	2,124,000	1,939,871

The following expected benefit payments by year, which reflect expected future service, as appropriate, are expected to be paid:

2009	73,000
2010	81,000
2011	89,000
2012	99,000
2013	107,000
2014 - 2018	666,000

Prior service costs and gains/losses are amortized on a straight-line basis over the average remaining service period of active participants.

The estimated net actuarial loss that will be amortized from accumulated other comprehensive income into net periodic benefit cost over the next fiscal year is 236,000.
