HONORABLE CARL E. BAILEY,
Governor of Arkansas,
Little Rock, Arkansas.

Dear Governor:

Pursuant to statutory provisions we herewith submit the Fifty-Sixth Annual Report of the State Insurance Department, together with comments and recommendations for the better functioning of this Department. This Annual Report shows a condensed statement of all insurance companies licensed to transact business in Arkansas for the year ending December 31, 1936, together with the receipts and disbursements of the Department for the year 1936.

We would very much appreciate any comments or suggestions you might care to make relative to operation and supervision of the Department.

Respectfully submitted,

M. J. HARRISON,
Insurance Commissioner.

COMMENTS AND RECOMMENDATIONS

Our 1937 legislature by Act No. 2 abolished the office of Insurance Commissioner and State Fire Marshal and created the office of State Insurance Department, which department took over all the powers and duties of the former office. In addition said Act provided that the Deputy Commissioner shall take over all the duties of the Fire Marshal's department, thereby centering this important work and also giving the Insurance Commissioner more time to look after the business of supervising the insurance companies licensed to transact business in the State.

In addition to the above mentioned Act, the 1937 legislature, at our request, saw fit to give us a substantial increase in the appropriation for operating the Fire Marshal's division of the Department. For many years this division has been crippled to the extent that, at times, it could not operate because of lack of funds. At such times, those charged with the duties of investigating alleged incendiary fires, although requested by the proper officials to make investigations, could not leave Little Rock for the reason that there was no appropriation to take care of expenses incident to such investigations. We believe that this appropriation made by the 1937 legislature will result in such a reduction in incendiary fires that the fire insurance companies will have a more favorable experience, hence a reduction in the fire insurance rates.

The Fire Marshal's department has been under the direct supervision of Mr. Guy E. Williams since January 19,

1937, and his activities and investigations have already produced several arrests and indictments. Mr. Williams is cooperating with the prosecuting attorneys, sheriffs, police departments and fire departments throughout the State and we have received many letters of commendation relative to his work.

On taking office in January, 1937, we found that a large percentage of the correspondence from citizens of Arkansas consisted of complaints relative to failure of non-admitted life, health and accident companies to pay claims. We find there are upward of one hundred such companies using the mails in procuring business. This Department cannot reach such transactions and in most cases the Federal authorities have been unable to prosecute these outfits for using the mails to defraud. This Department has been instrumental in getting a bill introduced in Congress to prohibit the use of the mails in a State in which an insurance company is not licensed. This seems to be the only way to curb this evil.

In the meantime, we have issued warnings, which have been published in the newspapers of Arkansas, informing the citizens of the dangers incident to taking insurance in non-admitted companies. Our citizens cannot sue an insurance company in Arkansas, if such company has not, at some time or other, been licensed in the State. We are seeking cooperation of the entire populace of Arkansas in wiping out this illegal business which is taking thousands of dollars out of the State annually with practically no hope of return.
