

Continuing Care Provider under Ark. Code Annot. §§23-93-101 et seq. (Continuing Care Provider Regulation Act, No. 329 of 1987, and the Continuing Care Provider Regulation Act, No. 787 of 1993).

Pursuant to those Acts, the General Assembly found that continuing care communities are important and necessary alternatives to long-term residential, social and health maintenance needs for many of the state's elderly citizens and that a certain amount of disclosure was required, A.C.A. §23-93-102.

In an effort to properly comply with the review requirements of the Act as well as provide timely reviews of applications and annual disclosure statements, the Department requests the following when submitting new applications or the annual disclosure materials to the Department for review:

1. The information required by the Acts;
2. Whether the contract provisions required under A.C.A. §23-93-108 have changed since the last submission; and
3. If possible, digital copies of all submissions in lieu of paper.

All electronic submissions may be made to this email address:

<mailto:AID.ContinuingCare@Arkansas.gov>

If electronic submission is not possible, please provide the documents to:

Product Compliance Division
Arkansas Insurance Department
