**UNITEDHEALTHCARE OF ARKANSAS, INC.**

**NOTES TO STATUTORY BASIS FINANCIAL STATEMENTS  
AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2018 AND 2017**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND GOING CONCERN**

**Organization and Operation**

UnitedHealthcare of Arkansas, Inc. (the “Company”), licensed as a health maintenance organization (“HMO”), offers its enrollees a variety of managed care programs and products through contractual arrangements with health care providers. The Company is a wholly owned subsidiary of UnitedHealthcare, Inc. (“UHC”). UHC is a wholly owned subsidiary of United HealthCare Services, Inc. (“UHS”), a management corporation that provides services to the Company under the terms of a management agreement (the “Agreement”). UHS is a wholly owned subsidiary of UnitedHealth Group Incorporated (“UnitedHealth Group”). UnitedHealth Group is a publicly held company trading on the New York Stock Exchange.

The Company was incorporated on September 27, 1990, as an HMO and operations commenced in April 1992. The Company is certified as an HMO by the Arkansas Insurance Department (“the Department”). The Company has entered into contracts with physicians, hospitals, and other health care provider organizations to deliver health care services for all enrollees. The Company is licensed in the state of Arkansas.

The Company offers comprehensive commercial products to employer groups. Each contract outlines the coverage provided and renewal provisions. The Company also participates in the Affordable Care Act (“ACA”) individual exchange market in Arkansas. Effective January 1, 2017, the Company exited the ACA individual exchange market in Arkansas.

Effective January 1, 2018, the Company serves as a plan sponsor offering Medicare Advantage and Medicare Part D prescription drug insurance coverage (collectively “Medicare program”) under a contract with the Centers for Medicare and Medicaid Services (“CMS”). Under the Medicare program, there are seven separate elements of payment received by the Company either during the year or at settlement in the subsequent year. These payment elements are CMS premium, member premium, CMS low-income premium subsidy, CMS catastrophic reinsurance subsidy, CMS low-income member cost-sharing subsidy, CMS risk share, and the CMS coverage gap discount program (“CGDP”). Each component of the Medicare program is further defined throughout Note 1.

**A. Accounting Practices**

The statutory basis financial statements of the Company are presented on the basis of accounting practices prescribed or permitted by the Department.

The Department recognizes only statutory accounting practices, prescribed or permitted by the State of Arkansas, for determining and reporting the financial condition and results of operations of an HMO for determining its solvency under Arkansas Insurance Law. The state prescribes the use of the National Association of Insurance Commissioners’ (“NAIC”) Accounting Practices and Procedures manual (“NAIC SAP”) in effect for the accounting periods covered in the statutory basis financial statements.

ANNUAL STATEMENT FOR THE YEAR 2018 OF THE UnitedHealthcare of Arkansas, Inc.  
ANNUAL STATEMENT FOR THE YEAR 2018 OF THE UnitedHealthcare of Arkansas, Inc.

The Department has approved certain permitted accounting practices that differ from those found in the NAIC SAP. A reconciliation of the Company's net income and capital and surplus between the NAIC SAP and practices permitted by the Department is shown below:

	SSAP #	F/S Page #	F/S Line #	2018	2017
<b>Net Income (Loss)</b>					
(1) Company state basis (Page 4, Line 32, Columns 2 & 3)	XXX	XXX	XXX	\$ 4,863,224	\$ 4,355,100

(4) NAIC SAP (1 - 2 - 3 = 4)	XXX	XXX	XXX	<u>\$ 4,863,224</u>	<u>\$ 4,355,100</u>
<b>Capital and Surplus</b>					
(5) Company state basis (Page 3, Line 33, Columns 3 & 4)	XXX	XXX	XXX	\$ 18,826,755	\$ 16,971,698
(6) State prescribed practices that are an increase/(decrease) from NAIC SAP: Not Applicable				-	-
(7) State permitted practices that are an increase/(decrease) from NAIC SAP: §§ 23-63-805(1)(a) - non-admit liquidity pool assets over permitted limit	2R	2	5	-	(427,210)
§§ 23-63-805(1)(a) - Deferred tax impact of non-admit	101	2	18.2	-	89,713
(8) NAIC SAP (5 - 6 - 7 = 8)	XXX	XXX	XXX	<u>\$ 18,826,755</u>	<u>\$ 17,309,195</u>

The Department has approved certain permitted accounting practices that differ from those found in the NAIC SAP. The Department has determined that the Company's investments in the investment pool administered by United Healthcare Services, Inc. ("UHS") should be considered an investment in "one person" and is to be limited to no more than 5% of the Company's total admitted assets, pursuant to Arkansas Code Annotated ACA 23-63-805(1)(A), unless the commissioner authorizes the Company to exceed the statutory limit. The Company requested permission to exceed the statutory limit, and the Department has agreed to allow the Company to invest up to 20% of the Company's total admitted assets in the UHS investment pool. No investments exceeded the 20% statutory limit at December 31, 2018, and accordingly, no nonadmitted assets are reflected in unassigned surplus in the statutory basis financial statements. The investments exceeded the 20% statutory limit at December 31, 2017, and accordingly, nonadmitted assets of \$427,210 were reflected in unassigned surplus in the statutory basis financial statements. If the 5% limit per ACA 23 63-805(1)(A) had been followed as of December 31, 2018, and December 31, 2017, total admitted assets and total capital and surplus would have been reduced by approximately \$0 and \$3,700,000, respectively. There was no impact on regulatory risk-based capital ("RBC") event due to the Company obtaining permission to exceed the limit of the Arkansas statute.

**B. Use of Estimates in the Preparation of the Statutory Basis Financial Statements**

The preparation of these statutory basis financial statements in conformity with the NAIC Annual Statement Instructions and the NAIC SAP include certain amounts that are based on the Company's estimates and judgments. These estimates require the Company to apply complex assumptions and judgments, often because the Company must make estimates about the effects of matters that are inherently uncertain and will change in subsequent periods. The most significant estimates relate to hospital and medical benefits, claims unpaid, aggregate health policy reserves (including medical loss ratio rebates) and aggregate health claim reserves, and risk adjustment estimates. The Company adjusts these estimates each period as more current information becomes available. The impact of any changes in estimates is included in the determination of net income in the period in which the estimate is adjusted.

**C. Accounting Policy**

**Basis of Presentation** — The Company prepares its statutory basis financial statements on the basis of accounting practices prescribed or permitted by the Department. These statutory practices differ from accounting principles generally accepted in the United States of America ("GAAP").

Accounting policy disclosures that are required by the NAIC Annual Statement instructions are as follows:

- (1–2) Bonds and short-term investments are stated at book/adjusted carrying value if they meet NAIC designation of one or two and stated at the lower of book/adjusted carrying value or fair value if they meet an NAIC designation of three or higher. The Company does not have any mandatory convertible securities or Securities Valuation Office of the NAIC (“SVO”) identified funds (i.e.: exchange traded funds or bond mutual funds) in its bond portfolio. Amortization of bond premium or accretion of discount is calculated using the constant-yield interest method. Bonds and short-term investments are valued and reported using market prices published by the SVO in accordance with the NAIC Valuation of Securities manual prepared by the SVO or an external pricing service;
- (3–4) The Company holds no common or preferred stock;
- (5) The Company holds no mortgage loans on real estate;
- (6) The Company holds no loan-backed securities;
- (7) The Company holds no investments in subsidiaries, controlled, or affiliated entities;
- (8) The Company has no investment interests with respect to joint ventures, partnerships, or limited liability companies;
- (9) The Company holds no derivatives;
- (10) Premium deficiency reserves (inclusive of conversion reserves) and the related expenses are recognized when it is probable that expected future health care expenses, claims adjustment expenses (“CAE”), direct administration costs, and an allocation of indirect administration costs under a group of existing contracts will exceed anticipated future premiums and reinsurance recoveries considered over the remaining lives of the contracts, and are recorded as aggregate health policy reserves in the statutory basis statements of admitted assets, liabilities, and capital and surplus. Indirect administration costs arise from activities that are not specifically identifiable to a specific group of existing contracts, and therefore, those costs are fully allocated among the various contract groupings. The allocation of indirect administration costs to each contract grouping is made proportionately to the expected margins remaining in the premiums after future health care expenses, CAE, and direct administration costs are considered. The methods for making such estimates and for establishing the resulting reserves are periodically reviewed and updated, and any adjustments are reflected as an increase or decrease in reserves for life and accident and health contracts in the statutory basis statements of operations in the period in which the change in estimate is identified. The Company anticipates investment income as a factor in the premium deficiency calculation (see Note 30);
- (11) CAE are those costs expected to be incurred in connection with the adjustment and recording of accident and health claims. Pursuant to the terms of the Agreement (see Note 10), the Company pays a management fee to its affiliate, UHS in exchange for administrative and management services. A detailed review of the administrative expenses of the Company and UHS is performed to determine the allocation between CAE and general administrative expenses (“GAE”) to be reported in the statutory basis statements of operations. It is the responsibility of UHS to pay CAE in the event the Company ceases operations. The Company has recorded an estimate of unpaid CAE associated with incurred but unpaid claims, which is included in unpaid CAE in the statutory basis statements of admitted assets, liabilities, and capital and surplus. Management believes the amount of the liability for unpaid CAE as of December 31, 2018 is adequate to cover the Company’s cost for the adjustment and recording of unpaid claims; however, actual expenses may differ from those established estimates. Adjustments to the estimates for unpaid CAE are reflected in operating results in the period in which the change in estimate is identified;
- (12) The Company does not carry any fixed assets on the statutory basis financial statements;
- (13) Health care and other amounts receivable consist of pharmacy rebates receivable estimated based on the most currently available data from the Company’s claims processing systems and from data provided by the Company’s affiliated pharmaceutical benefit manager, OptumRx, Inc. (“OptumRx”). Health care and other amounts receivable also include receivables for amounts due to the Company for provider advances and claim overpayments to providers, hospitals and other health care organizations. Health care and other amounts receivable are considered nonadmitted assets under the NAIC SAP if they do not meet admissibility requirements. Accordingly, the Company has excluded receivables that do not meet the admissibility criteria from the statutory basis statements of admitted assets, liabilities, and capital and surplus (see Note 28).

The Company has also deemed the following to be significant accounting policies and/or differences between statutory practices and GAAP:

## **ASSETS**

### ***Cash and Invested Assets***

- Bonds include U.S. government and agency securities with a maturity of greater than one year at the time of purchase;
- Certain debt investments categorized as available-for-sale or held-to-maturity under GAAP are presented at the lower of book/adjusted carrying value or fair value in accordance with the NAIC designations in the statutory basis financial statements, whereas under GAAP, these investments are shown at fair value or book/adjusted carrying value, respectively;
- Cash and short-term investments in the statutory basis financial statements represent cash balances and investments with original maturities of one year or less from the time of acquisition, whereas under GAAP, the corresponding caption of cash, cash equivalents, and short-term investments includes cash balances and investments that will mature in one year or less from the balance sheet date;
- Cash represents cash held by the Company in disbursement accounts. Claims and other payments are made from the disbursement accounts daily;
- Outstanding checks are required to be netted against cash balances or presented as cash overdrafts if in excess of cash balances in the statutory basis statements of admitted assets, liabilities, and capital and surplus as opposed to being presented as other liabilities under GAAP;
- The Company has no cash equivalent investments for the periods ending December 31, 2018 and 2017. Cash equivalents have original maturity dates of three months or less from the date of acquisition. Cash equivalents, excluding money-market funds are reported at cost or book/adjusted carrying value depending on the nature of the underlying security, which approximates fair value. Money-market funds are reported at fair value or net asset value ("NAV") as a practical expedient;
- Short-term investments include corporate debt securities. Short-term investments have a maturity of greater than three months but less than one year at the time of purchase. Short-term investments also consist of the Company's share of an investment pool sponsored and administered by UHS. The investment pool consists principally of investments with original maturities of less than one year, with the average life of the individual investments being less than 60 days. The Company's share of the pool represents an undivided ownership interest in the pool and is immediately convertible to cash at no cost or penalty. The participants within the pool have an individual fund number to track those investments owned by the Company. In addition, the Company is listed as a participant in the executed custodial agreement between UHS and the custodian whereby the Company's share in the investment pool is segregated and separately maintained. The pool is primarily invested in government obligations, commercial paper, certificates of deposit, and short-term agency notes and is recorded at cost or book/adjusted carrying value depending on the composition of the underlying securities. Interest income from the pool accrues daily to participating members based upon ownership percentage;
- Realized capital gains and losses on sales of investments are calculated based upon specific identification of the investments sold. The Company has not recognized any realized capital gains or losses on sales of investments in 2018 or 2017;
- The Company continually monitors the difference between amortized cost and estimated fair value of its investments. If any of the Company's investments experience a decline in value that the Company has determined is other-than-temporary, or if the Company has determined it will sell a security that is in an impaired status, the Company will record a realized loss in net realized capital gains (losses) less capital gains tax (benefit) in the statutory basis statements of operations. The new cost basis is not changed for subsequent recoveries in fair value. The prospective adjustment method is utilized for loan-backed securities for periods subsequent to the loss recognition. The Company has not recorded any other-than-temporary impairments ("OTTI") for the years ended December 31, 2018 and 2017;

- The statutory basis statements of cash flows reconcile cash and short-term investments, with original maturities of one year or less from the time of acquisition; whereas under GAAP, pursuant to Accounting Standards Update 2016-18, *Statement of Cash Flows, Restricted Cash*, the statements of cash flows reconcile the corresponding captions of cash, cash equivalents and restricted cash with maturities of three months or less. Short-term investments with a final maturity of one year or less from the balance sheet date are not included in the reconciliation of GAAP cash flows. In addition, there are classification differences within the presentation of the cash flow categories between GAAP and statutory reporting. The statutory basis statements of cash flows are prepared in accordance with the NAIC Annual Statement Instructions.

#### **Other Assets**

- **Investment Income Due and Accrued** — Investment income earned and due as of the reporting date, in addition to investment income earned but not paid or collected until subsequent periods, is reported as investment income due and accrued in the statutory basis statements of admitted assets, liabilities, and capital and surplus. The Company evaluates the collectability of the amounts due and accrued and amounts determined to be uncollectible are written off in the period in which the determination is made. In addition, the remaining balance is assessed for admissibility and any balance greater than 90 days past due is considered a nonadmitted asset.
- **Premiums and Considerations** — The Company reports uncollected premium balances from its insured members as premiums and considerations in the statutory basis statements of admitted assets, liabilities, and capital and surplus. Uncollected premium balances that are over 90 days past due with the exception of amounts due from government insured plans, are considered nonadmitted assets. In addition to those balances, current balances are also considered nonadmitted if the corresponding balance greater than 90 days past due is deemed more than inconsequential. Premiums and considerations also include the following:

a) risk adjustment receivables as defined in Section 1343 of the ACA. Premium adjustments are based upon the risk scores (health status) of enrollees participating in risk adjustment covered plans, rather than the actual loss experience of the insured. Effective for 2018 benefit plan year, the risk adjustments and distributions are calculated using a high-cost risk pool which adds a reinsurance-like element to this program. A risk adjustment receivable is recorded when the Company estimates its average actuarial risk score for policies included in this program is greater than the average actuarial risk scores in that market and state risk pool (see Note 24);

b) CMS risk adjustment receivables. The risk adjustment model apportions premiums paid to all health plans according to the health severity and certain demographic factors of its enrollees. The CMS risk adjustment model pays more for members whose medical history indicates they have certain medical conditions. Under this risk adjustment methodology, CMS calculates the risk-adjusted premium payment using diagnosis data from hospital inpatient, hospital outpatient, and physician treatment settings. The Company and health care providers collect, capture, and submit the necessary and available diagnosis data to CMS within prescribed deadlines. The Company estimates risk adjustment revenues based upon the diagnosis data submitted and expected to be submitted to CMS. The Company recognizes such changes when the amounts become determinable and supportable and collectability is reasonably assured (see Note 24);

Premium adjustments for the ACA Section 1343 risk adjustment and CMS risk adjustment programs are accounted for as premium adjustments subject to redetermination (see Note 24).

- **Amounts Receivable Relating to Uninsured Plans** — Receivables for amounts held under uninsured plans represent the costs incurred in excess of the cost reimbursement under the Medicare program for the catastrophic reinsurance subsidy and the low-income member cost-sharing subsidy for the individual members. The Company is fully reimbursed by CMS for costs incurred for these contract elements, and accordingly, there is no insurance risk to the Company. Subsidies for individual members are received monthly and are not reflected as net premium income, but rather are accounted for as deposits. If the Company incurs costs in excess of these subsidies, a corresponding receivable is recorded in amounts receivable relating to uninsured plans in the statutory basis statements of admitted assets, liabilities, and capital and surplus. Related cash flows are presented within operating expenses paid within net cash provided by operations in the statutory basis statements of cash flows. The Patient Protection and Affordable Care Act and its related legislation (“ACA”) mandates consumer discounts of 50% on brand name prescription drugs for Part D plan participants in the coverage gap. As part of the CGDP, the Company records a receivable from the pharmaceutical manufacturers for reimbursement of the discounts which is included in amounts receivable relating to uninsured plans in the statutory basis statements of admitted assets, liabilities, and capital and surplus. There are no similar subsidies for employer group members. Related cash flows are presented within operating expenses paid within net cash (used in) provided by operations in the statutory basis statements of cash flows. The Company solely administers the application of these funds and has no insurance risk.
- **Current Federal Income Tax Recoverable** — The Company is included in the consolidated federal income tax return with its ultimate parent, UnitedHealth Group, under which taxes approximate the amount that would have been computed on a separate company basis, with the exception of net operating losses and capital losses. For these losses, the Company receives a benefit at the federal rate in the current year for current taxable losses incurred in that year to the extent losses can be utilized in the consolidated federal income tax return of UnitedHealth Group. A current federal income tax recoverable is recognized when the Company’s allocated intercompany estimated payments are more than its actual calculated obligation based on the Company’s stand-alone federal income tax return (see Note 9).
- **Net Deferred Tax Asset** — The NAIC SAP provides for an amount to be recorded for deferred taxes on temporary differences between the financial reporting and tax bases of assets, subject to a valuation allowance and admissibility limitations on deferred tax assets (see Note 9). In addition, under the NAIC SAP, the change in deferred tax assets is recorded directly to unassigned surplus in the statutory basis financial statements, whereas under GAAP, the change in deferred tax assets is recorded as a component of the income tax provision within the income statement and is based on the ultimate recoverability of the deferred tax assets. Based on the admissibility criteria under the NAIC SAP, any deferred tax assets determined to be nonadmitted are charged directly to surplus and excluded from the statutory basis financial statements, whereas under GAAP, such assets are included in the balance sheet.

#### **LIABILITIES**

- **Claims Unpaid and Aggregate Health Claim Reserves** — Claims unpaid and aggregate health claim reserves include claims processed but not yet paid, estimates for claims received but not yet processed, estimates for the costs of health care services enrollees have received but for which claims have not yet been submitted, and payments and liabilities for physician, hospital, and other medical costs disputes.

The estimates for incurred but not yet reported claims are developed using an actuarial process that is consistently applied, centrally controlled, and automated. The actuarial models consider factors such as historical submission and payment data, cost trends, customer and product mix, seasonality, utilization of health care services, contracted service rates, and other relevant factors. The Company estimates such liabilities for physician, hospital, and other medical cost disputes based upon an analysis of potential outcomes, assuming a combination of litigation and settlement strategies. These estimates may change as actuarial methods change or as underlying facts upon which estimates are based change. The Company did not change actuarial methods during 2018 and 2017. Management believes the amount of claims unpaid and aggregate health claim reserves is a best estimate of the Company’s liability for unpaid claims and aggregate health claim reserves as of December 31, 2018; however, actual payments may differ from those established estimates.

The reserves ceded to reinsurers for claims unpaid and aggregate health claim reserves have been reported as reductions of the related reserves rather than as assets, which would be required under GAAP.

The Company contracts with hospitals, physicians, and other providers of health care under capitated or discounted fee for service arrangements, including a hospital per diem to provide medical care services to enrollees. Some of these contracts are with related parties (see Note 10). Capitated providers are at risk for the cost of medical care services provided to the Company's enrollees; however, the Company is ultimately responsible for the provision of services to its enrollees should the capitated provider be unable to provide the contracted services.

- **Accrued Medical Incentive Pool and Bonus Amounts** — The Company has agreements with certain independent physicians and physician network organizations that provide for the establishment of a fund into which the Company places monthly premiums payable for members assigned to the physician. The Company manages the disbursement of funds from this account as well as reviews the utilization of nonprimary care medical services of members assigned to the physicians. Any surpluses in the fund are shared by the Company and the physician based upon predetermined risk-sharing percentage and the liability is included in accrued medical incentive pool and bonus amounts in the statutory basis statements of admitted assets, liabilities, and capital and surplus. The Company has incentive and bonus arrangements with providers that are based on quality, utilization, and/or various health outcome measures. The estimated amount due to providers that meet the established metrics is included in accrued medical incentive pool and bonus amounts in the statutory basis statements of admitted assets, liabilities, and capital and surplus.
- **Aggregate Health Policy Reserves** — The Company establishes a liability, net of ceded reinsurance, for estimated accrued retrospective and redetermination premiums due from the Company based on the actuarial method and assumptions for each respective contract. Aggregate health policy reserves also includes:
  - a) risk adjustment payables as defined in Section 1343 of the ACA. Premium adjustments are based upon the risk scores (health status) of enrollees participating in risk adjustment covered plans, rather than the actual loss experience of the insured. A risk adjustment payable is recorded when the Company estimates its average actuarial risk score for policies included in this program is less than the average actuarial risk scores in that market and state risk pool (see Note 24);
  - b) CMS risk adjustment payables. The risk adjustment model apportions premiums paid to all health plans according to the health severity and certain demographic factors of its enrollees. The CMS risk adjustment model pays more for members whose medical history indicates they have certain medical conditions. Under this risk adjustment methodology, CMS calculates the risk-adjusted premium payment using diagnosis data from hospital inpatient, hospital outpatient, and physician treatment settings. The Company and health care providers collect, capture, and submit the necessary and available diagnosis data to CMS within prescribed deadlines. If diagnosis data submitted to CMS needs to be corrected or deleted, the revised diagnosis data can be re-submitted. The Company estimates reductions to risk adjustment revenues and corresponding change in CMS risk adjustment payables based upon the diagnosis data submitted and expected to be submitted to CMS. The Company recognizes such changes when the amounts become determinable and supportable (see Note 24);
  - c) estimated rebates payable on the comprehensive commercial and Medicare products, if the medical loss ratios on these fully insured products, as calculated under the definitions of the ACA; and;
  - d) unearned premiums are established for the portion of premiums received during the current period that are partially unearned at the end of the period and are included in aggregate health policy reserves in the statutory basis statements of admitted assets, liabilities, and capital and surplus;
- **Premiums Received in Advance** — Premiums received in full for the policies processed during the current period, but prior to the commencement of the service period, are recorded as premiums received in advance in the statutory basis statements of admitted assets, liabilities, and capital and surplus.
- **General Expenses Due or Accrued** — General expenses that are due as of the reporting date in addition to general expenses that have been incurred but are not due until a subsequent period are reported as general expenses due or accrued in the statutory basis statements of admitted assets, liabilities, and capital and surplus. General expenses due or accrued also include the amounts for unpaid assessments, premium taxes, and the unpaid portion of the contributions required under the ACA risk adjustment and reinsurance programs (see Note 24).

- **Current Federal Income Taxes Payable** — The Company is included in the consolidated federal income tax return with its ultimate parent, UnitedHealth Group under which taxes approximate the amount that would have been computed on a separate company basis, with the exception of net operating losses and capital losses. For these losses, the Company receives a benefit at the federal rate in the current year for current taxable losses incurred in that year to the extent losses can be utilized in the consolidated federal income tax return of UnitedHealth Group. A liability for federal income taxes payable is recognized when its allocated intercompany estimated payments are less than its actual calculated obligation based on the Company's stand-alone federal income tax return (see Note 9).
- **Amounts Due to Parent, Subsidiaries, and Affiliates, Net** — In the normal course of business, the Company has various transactions with related parties (see Note 10). The Company reports any unsettled amounts owed as amounts due to parent, subsidiaries, and affiliates, net, in the statutory basis statements of admitted assets, liabilities, and capital and surplus.
- **Liability for Amounts Held Under Uninsured Plans** — Liability for amounts held under uninsured plans represents costs incurred that are less than the cost reimbursement under the Medicare program for the catastrophic reinsurance subsidy and the low-income member cost-sharing subsidy for the individual members. The Company is fully reimbursed by CMS for costs incurred for these contract elements, and accordingly, there is no insurance risk to the Company. Subsidies for individual members are received monthly and are not reflected as net premium income, but rather are accounted for as deposits. If the Company incurs costs less than these subsidies, a corresponding liability is recorded in liability for amounts held under uninsured plans in the statutory basis statements of admitted assets, liabilities, and capital and surplus. Related cash flows are presented within operating expenses paid within net cash provided by (used in) operations in the statutory basis statements of cash flows. For employer group members, the cost reimbursement under the Medicare program for the catastrophic reinsurance subsidy is consistent with reimbursement for individuals. The low-income member cost-sharing subsidy for employer group members is only received at settlement which is in the subsequent year. The ACA mandates consumer discounts of 50% on brand name prescription drugs for Part D plan participants in the coverage gap. These discounts are pre-funded for the individual members by CMS and a liability for the amount subject to recoupment is recorded in liability for amounts held under uninsured plans in the statutory basis statements of admitted assets, liabilities, and capital and surplus. Related cash flows are presented within operating expenses paid within net cash provided by (used in) operations in the statutory basis statements of cash flows. The Company solely administers the application of these funds and has no insurance risk.

Liability for amounts held under uninsured plans also includes the cost reimbursement for the cost-sharing reduction components of the ACA. The Company is fully reimbursed by the federal government for costs incurred related to these provisions. The Company receives advances that are applied to eligible claims. If the Company incurs costs that are less than these subsidies, a corresponding liability is recorded for amounts held under uninsured plans in the statutory basis statements of admitted assets, liabilities, and capital and surplus.

#### **CAPITAL AND SURPLUS AND MINIMUM STATUTORY REQUIREMENTS**

- **Nonadmitted Assets** — Certain assets, including certain aged premium receivables, certain health care and other amounts receivable, prepaid expenses, and amounts receivable relating to uninsured plans, and intangible assets, are considered nonadmitted assets under the NAIC SAP and are excluded from the statutory basis statements of admitted assets, liabilities, and capital and surplus and charged directly to unassigned surplus. Under GAAP, such assets are included in the balance sheet.
- **Restricted Cash Reserves** — The Company held regulatory deposits in the amount of \$309,273 and \$315,946 as of December 31, 2018 and 2017, respectively, in compliance with the state requirements for qualification purposes as a domestic and foreign insurer. These restricted cash reserves consist principally of government obligations and are stated at book/adjusted carrying value, which approximates fair value. These restricted deposits are included in bonds in the statutory basis statements of admitted assets, liabilities, and capital and surplus. Interest earned on these deposits accrues to the Company.

**Minimum Capital and Surplus** — Under the laws of the State of Arkansas, the Department requires the Company to maintain a minimum capital and surplus equal to \$100,000. The Company has \$18,826,755 and \$16,971,698 in total statutory basis capital and surplus as of December 31, 2018 and 2017, respectively, which is in compliance with the required amount.

Risk-based capital (“RBC”) is a regulatory tool for measuring the minimum amount of capital appropriate for a managed care organization to support its overall business operations in consideration of its size and risk profile. The Department requires the Company to maintain minimum capital and surplus equal to the greater of the state statute as outlined above, or the company action level as calculated by the RBC formula, or the level needed to avoid action pursuant to the trend test in the RBC formula. The Company is in compliance with the required amount.

- **Section 9010 ACA subsequent fee year assessment** — The Company is subject to the Section 9010 ACA subsequent fee year assessment. Under the NAIC SAP, an amount equal to the estimated subsequent year fee must be apportioned out of unassigned surplus and reported as Section 9010 ACA subsequent fee year assessment, in the statutory basis statements of admitted assets, liabilities, and capital and surplus, whereas under GAAP, no such special surplus designation is required. In accordance with the 2019 Health Insurer Fee (“HIF”) moratorium, no HIF will be payable in 2019, therefore no amounts were apportioned out of unassigned surplus in the 2018 statutory basis statements of admitted assets, liabilities, and capital and surplus.

### **STATEMENTS OF OPERATIONS**

- **Net Premium Income and Change in Unearned Premium Reserves and Reserve for Rate Credits** — Revenues consist of net premium income that is recognized in the period in which enrollees are entitled to receive health care services. Net premium income is shown net of reinsurance premiums paid and reinsurance premiums incurred but not paid in the statutory basis statements of operations. The corresponding change in unearned premium from year to year is reflected as a change in unearned premium reserves and reserve for rate credits in the statutory basis statements of operations. Under GAAP, the change in unearned premium from year to year is reported through premium income.

Comprehensive commercial health plans with medical loss ratios on fully insured products, as calculated under the definitions in the ACA (see Note 14) and implementing regulations, that fall below certain targets are required to rebate ratable portions of premiums annually. The Company classifies its estimated rebates as change in unearned premium reserves and reserve for rate credits in the statutory basis statements of operations.

Pursuant to Section 1342 and Section 1343 of the ACA, the Company records premium adjustments for changes to the risk corridor and risk adjustment balances which are reflected in change in unearned premium reserves and reserve for rate credits and net premium income, respectively, in the statutory basis statements of operations.

Net premium income includes premium under the Medicare Advantage program, which includes CMS premium and member premium. It also includes premium under the Medicare program, which includes CMS premium, member premium, and CMS low-income premium subsidy for the Company’s insurance risk coverage. Net premium income is recognized ratably over the period in which eligible individuals are entitled to receive health care services and prescription drug benefits.

Net premium income also includes amounts pursuant to the CMS risk adjustment program. The Company recognized \$2,058,157 and \$0 for changes in prior year Medicare risk factor estimates during the years ended December 31, 2018 and 2017, respectively, which is recorded as net premium income in the statutory basis statements of operations.

The Company also records estimates related to the CMS risk corridor program. Changes to these estimates are reflected as change in unearned premium reserves and reserve for rate credits in the statutory basis statements of operations.

Medicare Advantage plans and Part D prescription drug plans are subject to medical loss ratio requirements under the ACA. Plans with medical loss ratios that fall below certain targets are required to rebate ratable portions of premiums annually. The Company classifies its estimated rebates as change in unearned premium reserves and reserve for rate credits in the statutory basis statements of operations.

Medicare Advantage CMS premium is based on a budgeted amount reimbursed monthly by CMS and then adjusted to actual based on a year-end cost report. CMS has the option to audit the cost reports filed by the Company, and therefore, adjustments to recorded amounts may occur based on these audits. All cost reports for 2018 and prior have been settled with CMS. There have been no adjustments recorded to the statutory basis statements of operations related to the CMS cost reports audits for the years ended December 31, 2018 and 2017.

- **Total Hospital and Medical Expenses** — Total hospital and medical expenses include claims paid, claims processed but not yet paid, estimates for claims received but not yet processed, estimates for the costs of health care services enrollees have received but for which claims have not yet been submitted, and payments and liabilities for physician, hospital, and other medical costs disputes.

Total hospital and medical expenses also include amounts incurred for incentive pool, withhold adjustments, and bonus amounts that are based on the underlying contractual provisions with the respective providers. In addition, adjustments to claims unpaid estimates and aggregate health claim reserves are reflected in the period once the change in estimate is identified and included in total hospital and medical expenses in the statutory basis statements of operations.

- **General Administrative Expenses** — Pursuant to the terms of the Agreement (see Note 10), the Company pays a management fee to UHS in exchange for administrative and management services. Costs for items not included within the scope of the Agreement are directly expensed as incurred. Premium taxes are also a component of GAE. A detailed review of the administrative expenses of the Company and UHS is performed to determine the allocation between CAE and GAE to be reported in the statutory basis statements of operations.

The Company is subject to an annual fee under Section 9010 of the ACA. A health insurance entity's annual fee becomes payable once the entity provides health insurance for any U.S. health risk during the calendar year, which is nondeductible for tax purposes. Under the NAIC SAP, the entire amount of the estimated annual fee expense is recognized on January 1 of the fee year in GAE in the statutory basis statements of operations, whereas under GAAP, a deferred asset is created on January 1 of the fee year which is amortized to expense on a straight-line basis throughout the year.

- **Net Investment Income Earned**— Net investment income earned includes investment income collected during the period, as well as the change in investment income due and accrued on the Company's holdings. Amortization of premium or discount on bonds and certain external investment management costs are also included in net investment income earned (see Note 7).
- **Federal Income Taxes Incurred**— The provision for federal income taxes incurred is calculated based on applying the statutory federal income tax rate of 21% to net gain (loss) from operations before federal income taxes and net realized capital gains (losses) subject to certain adjustments (see Note 9).
- **Comprehensive Income** — Comprehensive income and its components are not separately presented in the statutory basis financial statements, whereas under GAAP, it is a requirement to present comprehensive income and its components in the financial statements.

## **REINSURANCE**

- **Reinsurance Ceded** —The Company has an insolvency-only reinsurance agreement with UnitedHealthcare Insurance Company ("UHIC"), an affiliate whereby 0.1% of net premium income is ceded to UHIC.
- **Section 1341 ACA Transitional Reinsurance** — The Company has established a receivable of \$4,259 and \$148,278 as of December 31, 2018 and 2017, respectively, pursuant to Section 1341 of the ACA which is included in amounts recoverable from reinsurers, and ceded reinsurance premiums payable in the statutory basis statements of admitted assets, liabilities, and capital and surplus, for the transitional reinsurance program. This program was designed to protect issuers in the individual market from an expected increase in large claims due to the elimination of preexisting condition limitations (see Note 24).
- **Ceded Reinsurance Premiums Payable** — The ceded reinsurance premiums payable balance represents amounts due to the reinsurer for specified coverage which will be paid based on the contract terms.

## **OTHER**

- **Vulnerability Due to Certain Concentrations** — The Company is subject to substantial federal and state government regulation, including licensing and other requirements relating to the offering of the Company's existing products in new markets and offerings of new products, both of which may restrict the Company's ability to expand its business.

The Company has no commercial customers that individually exceed 10% of total direct premiums written and uncollected premiums, including receivables for contracts subject to redetermination, for the years ended December 31, 2018 and 2017.

Direct premiums written and uncollected premiums, including receivables for contracts subject to redetermination, from members and CMS related to Medicare Advantage and the Medicare Part D program as a percentage of total direct premiums written and total uncollected premiums, including receivables for contracts subject to redetermination, are 64% and 76% as of December 31, 2018 and 0% and 0% as of December 31, 2017, respectively.

**Recently Issued Accounting Standards** — The Company reviewed all recently issued guidance in 2018 and 2017 that has been adopted for 2018 or subsequent years' implementation and has determined that none of the items would have a significant impact to the statutory basis financial statements.

**D. Going Concern**

The Company has the ability and will continue to operate for a period of time sufficient to carry out its commitments, obligations and business objectives.

**2. ACCOUNTING CHANGES AND CORRECTION OF ERRORS**

No changes in accounting principles or correction of errors have been recorded during the years ended December 31, 2018 and 2017.

**3. BUSINESS COMBINATIONS AND GOODWILL**

**A–D.** The Company was not party to a business combination during the years ended December 31, 2018 and 2017, and does not carry goodwill in its statutory basis statements of admitted assets, liabilities, and capital and surplus.

**4. DISCONTINUED OPERATIONS.**

**A. Discontinued Operation Disposed of or Classified as Held for Sale**

(1–4) The Company did not have any discontinued operations disposed of or classified as held for sale during 2018 and 2017.

**B. Change in Plan of Sale of Discontinued Operation** — Not applicable.

**C. Nature of any Significant Continuing Involvement with Discontinued Operations after Disposal** — Not applicable.

**D. Equity Interest Retained in the Discontinued Operation after Disposal** — Not applicable.

**5. INVESTMENTS AND OTHER INVESTED ASSETS**

For purposes of calculating gross realized gains and losses on sales of investments, the amortized cost of each investment sold is used. The Company does not have any gross realized gains or losses at December 31, 2018 and 2017. Total proceeds on the sale of short-term investments were \$56,762,746 and \$43,949,182 in 2018 and 2017, respectively.

As of December 31, 2018 and 2017, the book/adjusted carrying value, fair value, and gross unrecognized unrealized gains and losses of the Company's investments, excluding cash of \$23,204,168 and \$15,944,667, respectively, are as follows

	2018

The unrecognized unrealized losses on investments in U.S. government and agency securities at December 31, 2018 and 2017, were mainly caused by interest rate increases and not by unfavorable changes in the credit ratings associated with these securities. The Company evaluates impairment at each reporting period for each of the securities whereby the fair value of the investment is less than its book/adjusted carrying value. The contractual cash flows of the U.S. government and agency securities are guaranteed either by the U.S. government or an agency of the U.S. government. It is expected that the securities would not be settled at a price less than the cost of the investment, and the Company does not intend to sell the investment until the unrealized loss is fully recovered. The Company evaluated the credit ratings of the municipal, local agency and corporate debt securities, noting whether a significant deterioration since purchase or other factors that may indicate an other-than-temporary impairment ("OTTI"), such as the length of time and extent to which fair value has been less than cost, the financial condition, and near-term prospects of the issuer as well as specific events or circumstances that may influence the operations of the issuer and the Company's intent to sell the investment. Additionally, the Company evaluated its intent and ability to retain loan-backed securities for a period of time sufficient to recover the amortized cost. As a result of these reviews, no OTTIs were recorded by the Company as of December 31, 2018 and 2017.

**14. LIABILITIES, CONTINGENCIES AND ASSESSMENTS**

**A. Contingent Commitments**

The Company has no contingent commitments.

**B. Assessments**

The Company is not aware of any other guaranty fund assessments or premium tax offsets, potential or accrued, that could have a material financial effect on the operations of the entity.

**C. Gain Contingencies**

The Company is not aware of any gain contingencies that should be disclosed in the statutory basis financial statements.

**D. Claims Related Extra Contractual Obligation and Bad Faith Losses Stemming from Lawsuits — Not applicable.**

**E. Joint and Several Liabilities — Not applicable.**

## F. All Other Contingencies

The Company's business is regulated at the federal, state, and local levels. The laws and rules governing the Company's business and interpretations of those laws and rules are subject to frequent change. Broad latitude is given to the agencies administering those regulations. Further, the Company must obtain and maintain regulatory approvals to market and sell many of its products.

The ACA and the related federal and state regulations will continue to impact how the Company does business and could restrict revenue and enrollment growth in certain products and market segments, restrict premium growth rates for certain products and market segments, increase the Company's medical and administrative costs, expose the Company to an increased risk of liability (including increasing the Company's liability in federal and state courts for coverage determinations and contract interpretation), or put the Company at risk for loss of business. In addition, the Company's statutory basis results of operations, financial condition, and cash flows could be materially adversely affected by such changes. The ACA may create new or expand existing opportunities for business growth, but due to its complexity, the long term impact of the ACA remains difficult to predict and is not yet fully known.

The Company has been, or is currently involved, in various governmental investigations, audits and reviews. These include routine, regular and special investigations, audits and reviews by CMS, state insurance and health and welfare departments and other governmental authorities. Certain of the Company's businesses have been reviewed or are currently under review, for reasons including compliance with coding and other requirements under the Medicare risk-adjustment model.

On February 14, 2017, the Department of Justice ("DOJ") announced its decision to pursue certain claims within a lawsuit initially asserted against the Company and filed under seal by a whistleblower in 2011. The whistleblower's complaint, which was unsealed on February 15, 2017, alleges that the Company made improper risk adjustment submissions and violated the False Claims Act. On February 12, 2018, the court granted in part and denied in part the Company's motion to dismiss. In May 2018, the DOJ moved to dismiss the Company's counterclaims, which were filed in March 2018, and moved for partial summary judgment. Those motions will be argued in September 2018. The Company cannot reasonably estimate the outcome that may result from this matter given its procedural status.

**Risk Adjustment Data Validation ("RADV") Audit** — CMS adjusts capitation payments to Medicare Advantage plans and Medicare Part D plans according to the predicted health status of each beneficiary as supported by data from health care providers. The Company collects claim and encounter data from providers who the Company generally relies on to appropriately code their claim submissions and document their medical records. CMS then determines the risk score and payment amount for each enrolled member based on the health care data submitted and member demographic information.

CMS and the Office of Inspector General for Health and Human Services periodically perform RADV audits of selected Medicare health plans to validate the coding practices and supporting documentation maintained by health care providers. Such audits have in the past resulted in, and in the future could result in, retrospective adjustments to payments made to the Company, fines, corrective action plans or other adverse action by CMS.

In February 2012, CMS announced a final RADV and payment adjustment methodology and is conducting the RADV audits beginning with the 2011 payment year. These audits involve a review of medical records maintained by care providers and may result in retrospective adjustments to payments made to health plans. CMS has not communicated how the final payment adjustment under its methodology will be implemented.

To date, the Company has not been selected by CMS to participate in a RADV audit.

Because of the nature of its businesses, the Company is frequently made party to a variety of legal actions and regulatory inquiries, including class actions and suits brought by members, care providers, consumer advocacy organizations, customers and regulators, relating to the Company's businesses, including management and administration of health benefit plans and other services.

The Company records liabilities for its estimates of probable costs resulting from these matters where appropriate. Estimates of costs resulting from legal and regulatory matters involving the Company are inherently difficult to predict, particularly where the matters involve: indeterminate claims for monetary damages or may involve fines, penalties or punitive damages; present novel legal theories or represent a shift in regulatory policy; involve a large number of claimants or regulatory bodies; are in the early stages of the proceedings; or could result in a change in business practices. Accordingly, the Company is often unable to estimate the losses or ranges of losses for those matters where there is a reasonable possibility or it is probable that a loss may be incurred. Although the outcomes of any such legal actions cannot be predicted, in the opinion of management, the resolution of any currently pending or threatened actions will not have a material adverse effect on the statutory basis statements of admitted assets, liabilities, and capital and surplus or statutory basis statements of operations of the Company.

The Company routinely evaluates the collectability of all receivable amounts included in the statutory basis statements of admitted assets, liabilities, and capital and surplus. Impairment reserves are established for those amounts where collectability is uncertain. Based on the Company's past experience, exposure related to uncollectible balances and the potential of loss for those balances not currently reserved for is not material to the Company's statutory basis financial condition.

There are no assets that the Company considers to be impaired at December 31, 2018 and 2017.

#### **15. LEASES**

**A–B.** According to the Agreement between the Company and UHS (see Note 10), operating leases for the rental of office facilities and equipment are the responsibility of UHS. Fees associated with the lease agreements are included as a component of the Company's management fee.

#### **16. INFORMATION ABOUT FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK AND FINANCIAL INSTRUMENTS WITH CONCENTRATIONS OF CREDIT RISK**

**A–B.** The Company has no operations from Administrative Services Only Contracts or Administrative Services Contracts in 2018 and 2017.

#### **C. Medicare or Other Similarly Structured Cost Based Reimbursement Contract**

The Medicare Part D program is a partially insured plan. The Company recorded a payable/receivable in amounts receivable relating to uninsured plans or liability for amounts held under uninsured plans in the statutory basis statements of admitted assets, liabilities, and capital and surplus of \$591,504 and \$1,489 at December 31, 2018 and 2017, respectively, for cost reimbursement under the Medicare Part D program for the catastrophic reinsurance and low-income member cost-sharing subsidies as described in Note 1, *Amounts Receivable Relating to Uninsured Plans* and *Liability for Amounts Held Under Uninsured Plans*. The Company also recorded a receivable of \$101,900 and \$55 and also a payable of \$98,225 and \$465 at December 31, 2018 and 2017, respectively, for the Medicare Part D CGDP as described in Note 1, *Amounts Receivable Relating to Uninsured Plans* and *Liability for Amounts Held Under Uninsured Plans*.

The Company receives payments from CMS under the ACA Cost Sharing Reduction ("CSR") program designed to reduce copayments, deductibles, and coinsurance for lower-income members. There is no insurance risk to the Company as a result of the CSR program. Overpayments from CMS are reported in liability for amounts held under uninsured plans and underpayments are reported in amounts receivable relating to uninsured plans in the statutory basis statements of admitted assets, liabilities, and capital and surplus. The Company has recorded a liability of \$0 and \$167,852 for the CSR program as of December 31, 2018 and December 31, 2017, respectively.

#### **19. DIRECT PREMIUM WRITTEN/PRODUCED BY MANAGING GENERAL AGENTS/THIRD-PARTY ADMINISTRATORS**

The Company did not have any direct premiums written or produced by managing general agents or third-party administrators in 2018 and 2017.

## 20. FAIR VALUE MEASUREMENT

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

*Level 1*—Quoted (unadjusted) prices for identical assets in active markets.

*Level 2*—Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.);
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.);
- Inputs that are derived principally from or corroborated by other observable market data.

*Level 3*—Unobservable inputs that cannot be corroborated by observable market data.

The estimated fair values of bonds and short-term investments are based on quoted market prices, where available. The Company obtains one price for each security primarily from a third-party pricing service (“pricing service”), which generally uses quoted prices or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, making adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, non-binding broker quotes, benchmark yields, credit spreads, default rates, and prepayment speeds. As the Company is responsible for the determination of fair value, it performs quarterly analyses on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source, prices reported by its custodian, its investment consultant, and third-party investment advisors. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to test the reasonableness of the reported prices. The Company’s internal price verification procedures and review of fair value methodology documentation provided by independent pricing services have not historically resulted in an adjustment in the prices obtained from the pricing service.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest-level input that is significant to the fair value measurement in its entirety. The Company’s assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

### A. Fair Value

(1–5) The Company does not have any financial assets that are measured and reported at fair value in the statutory basis statements of admitted assets, liabilities, and capital and surplus at December 31, 2018 and 2017.

### B. Fair Value Combination — Not applicable.

**TYPE I — Recognized Subsequent Events**

There are no events subsequent to December 31, 2018, that require recognition and disclosure.

**TYPE II — Non-Recognized Subsequent Events**

The Company is subject to the annual fee under Section 9010 of the ACA. The fee is allocated to individual health insurers based on the ratio of the amount of the entity's net premiums written during the preceding calendar year to the amount of the health insurance for any U.S. health risk that is written during the preceding calendar year. A health insurance entity's portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1, of the year the fee is due. Pursuant to the 2019 HIF moratorium (see Note 1), no HIF will be payable in 2019 and therefore there is no amount apportioned out of unassigned funds in 2018 representing an estimate of the 2019 HIF.

The table below presents information regarding the annual fee under Section 9010 of the ACA as of December 31, 2018 and 2017:

**23. REINSURANCE**

**Reinsurance Agreements**—In the normal course of business, the Company seeks to reduce potential losses that may arise from catastrophic events that cause unfavorable underwriting results by reinsuring certain levels of such risk with affiliated and other nonaffiliated reinsurers. The Company remains primarily liable as the direct insurer on all risks reinsured.

The Company has an insolvency-only reinsurance agreement with UnitedHealthcare Insurance Company ("UHIC"), an affiliate of the Company, to provide insolvency protection for its enrollees. Reinsurance premiums, which are calculated on a percentage of member premium income, of \$64,841 and \$21,840 in 2018 and 2017, respectively, are netted against net premium income in the statutory basis statements of operations.

The Company does not have any unaffiliated reinsurance agreements in place as of December 31, 2018 or 2017.

Pursuant to Section 1341 of the ACA, through 2017, the Company was subject to the reinsurance provisions for compliant individual policies (see Note 24).

Yes ( ) No (X)

**Section 3 — Ceded Reinsurance Report — Part B**

**24. RETROSPECTIVELY RATED CONTRACTS AND CONTRACTS SUBJECT TO REDETERMINATION**

- A.** The Company estimates accrued retrospective premium adjustments for its group health insurance business based on mathematical calculations in accordance with contractual terms.
- B.** Estimated accrued retrospective premiums due to (from) the Company are recorded in premiums and considerations and aggregate health policy reserves in the statutory basis statements of admitted assets, liabilities, and capital and surplus and as an adjustment to change in unearned premium reserves and reserve for rate credits in the statutory basis statements of operations.
- C.** Pursuant to the ACA, the Company's commercial business is subject to retrospectively rated features based on the actual medical loss ratios experienced on the commercial lines of business. The formula is calculated pursuant to the ACA guidance. The Company has risk-adjustment amounts from CMS which are subject to a redetermination feature related to Medicare premiums. The Company has estimated premium adjustments for changes to each member's health scores based on guidelines determined by CMS. The total amount of Medicare direct premiums written for which a portion is subject to the redetermination feature was \$2,457,031 and \$0 representing, less than 1% and 0% of total direct premiums written for 2018 and 2017, respectively.

E. **Risk-Sharing Provisions of the Affordable Care Act**

- (1) The Company has accident and health insurance premiums in 2018 and 2017 subject to the risk-sharing provisions of the ACA

The ACA imposed fees and premium stabilization provisions on health insurance issuers offering comprehensive commercial health insurance. The three premium stabilization programs are commonly referred to as the 3Rs — risk adjustment, reinsurance, and risk corridors.

**Risk Adjustment** — The permanent risk adjustment program, designed to mitigate the potential impact of adverse selection and provide stability for health insurance issuers, applies to all non-grandfathered plans not subject to transitional relief in the individual and small group markets both inside and outside of the insurance exchanges. Effective for 2018 benefit plan year, the risk adjustments and distributions are calculated using a high-cost risk pool which adds a reinsurance-like element to this program. The operation of the high-cost risk pools exclude a percentage of costs above a threshold level determined by federal regulations. The program operates two national high-cost risk pools, one for individuals and one for small groups. Premium adjustments pursuant to the risk adjustment program are accounted for as premium subject to redetermination and user fees are accounted for as assessments.

**Reinsurance** — The transitional reinsurance program was designed to protect issuers in the individual market from an expected increase in large claims due to the elimination of preexisting condition limitations. The transitional reinsurance program was effective from 2014 through 2016 and applied to all issuers of major medical commercial products and third-party administrators. Contributions attributable to enrollees in the ACA compliant individual plans, including program administrative costs, were accounted for as ceded premium and payments received were accounted for as ceded benefit recoveries. The portion of the individual contributions earmarked for the U.S. Treasury was accounted for as an assessment. Contributions made for enrollees in fully insured plans other than the ACA compliant individual plans, including program administrative costs and payments to the U.S. Treasury, were treated as assessments.

**Risk Corridors** — The temporary risk corridors program, designed to provide some aggregate protection against variability for issuers in the individual and small group markets during the period 2014 through 2016, applied to Qualified Health Plans in the individual and small group markets both inside and outside of the insurance exchanges. Premium adjustments pursuant to the risk corridors program were accounted for as premium adjustments for retrospectively rated contracts.

\*Health care receivables excludes provider loans and advances not yet expensed of \$2,099 and \$929 for 2017 and 2016, respectively.

The liability for claims unpaid, accrued medical incentive pool and bonus amounts, aggregate health claim reserves, net of health care and other amounts receivable (excluding provider loans and advances), and reinsurance recoverables as of December 31, 2017 was \$1,592,655. As of December 31, 2018, \$1,379,766 has been paid for incurred claims attributable to insured events of prior years. Reserves remaining for prior years, net of health care and other amounts receivable (excluding provider loans and advances), and reinsurance recoverables are now \$16,308, as a result of re-estimation of unpaid claims. Therefore, there has been \$196,581 favorable prior year development since December 31, 2017 to December 31, 2018. The primary drivers consist of favorable development as a result of a change in the provision for adverse deviations in experience of \$306,756, offset by unfavorable development of \$102,855 in retroactivity for inpatient, outpatient, physician, and pharmacy claims. At December 31, 2017, the Company recorded \$2,750,205 of favorable development related to favorable development as a result of a change in the provision for adverse deviations in experience of \$1,163,754, favorable development of \$756,919 in retroactivity for inpatient, outpatient, physician, and pharmacy claims, favorable development of \$531,069 as a result of a change in extended benefits, and favorable development of \$344,187 in reinsurance. Original estimates are increased or decreased, as additional information becomes known regarding individual claims, which could have an impact to the accruals for medical loss ratio rebates and retrospectively rated contracts. As a result of the prior year effects, on a regular basis, the Company adjusts revenue and the corresponding liability and/or receivable related to retrospectively rated policies and the impact of the change is included as a component of change in unearned premium reserves and reserve for rate credits in the statutory basis statements of operations.

The Company incurred CAE of \$2,801,653 and \$842,090 in 2018 and 2017, respectively. These costs are included in the management service fees paid by the Company to UHS as a part of the Agreement (see Note 10). The following table discloses paid CAE, incurred CAE, and the balance in unpaid CAE reserve for 2018 and 2017:

	<b>2018</b>	<b>2017</b>
Total claims adjustment expenses	\$ 2,801,653	\$ 842,09
Less: current year unpaid claims adjustment expenses	(51,028)	(15,76)
Add: prior year unpaid claims adjustment expenses	<u>15,769</u>	<u>61,10</u>
Total claims adjustment expenses paid	<u>\$ 2,766,394</u>	<u>\$ 887,42</u>

**B.** The Company did not make any significant changes in methodologies and assumptions used in the calculation of the liability for claims unpaid and unpaid CAE in 2018.

**26. INTERCOMPANY POOLING ARRANGEMENTS**

**A–G.** The Company did not have any intercompany pooling arrangements in 2018 or 2017.

**27. STRUCTURED SETTLEMENTS**

**A–B.** The Company did not have structured settlements in 2018 or 2017.

**28. HEALTH CARE AND OTHER AMOUNTS RECEIVABLE**

- A.** Pharmacy rebates receivable are recorded when reasonably estimated or billed by the affiliated pharmaceutical benefit manager in accordance with pharmaceutical rebate contract provisions. Information used to support rebates billed to the manufacturer is based on utilization information gathered by the pharmaceutical benefit manager and adjusted for significant changes in pharmaceutical contract provisions.

The Company evaluates admissibility of all pharmacy rebates receivable based on the administration of each underlying pharmaceutical benefit management agreement. The Company has nonadmitted and excluded all pharmacy rebates receivable that do not meet the admissibility criteria of SSAP No. 84, *Certain Health Care Receivables and Receivables under Government Insured Plans* (“SSAP No. 84”) from the statutory basis statements of admitted assets, liabilities, and capital and surplus.

For each pharmaceutical management agreement for which a portion of the total pharmacy rebates receivable can be admitted based on the admissibility criteria of SSAP No. 84, the pharmacy rebate transaction history is summarized as follows:

Quarter	Estimated Pharmacy Rebates as Reported on Financial Statements	Pharmacy Rebates as Billed or Otherwise Confirmed	Actual Rebates Received within 90 Days of Billing	Actual Rebates Received within 91 to 180 Days of Billing	Actual Rebates Received More than 180 Days after Billing

3/31/2016	295,013	287,415	93,418	183,018	8,476

Of the amount reported as health care and other amounts receivable, \$2,179,875 and \$529,561 relates to pharmacy rebates receivable as of December 31, 2018 and 2017, respectively. This increase is primarily due to increased membership along with the change in generic/name brand mix.

- B.** The Company does not have any risk-sharing receivables.

The Company admitted \$77,676 and \$0 in claim overpayments in 2018 and 2017, respectively.

**29. PARTICIPATING POLICIES**

The Company did not have any participating contracts in 2018 or 2017.

The Company has not recorded any premium deficiency reserves as of December 31, 2018 or 2017. The analysis of premium deficiency reserves was completed as of December 31, 2018 and 2017. The Company did consider anticipated investment income when calculating the premium deficiency reserves.

The following table summarizes the Company's premium deficiency reserves as of December 31, 2018 and 2017:

As of December 31, 2018 and 2017, the Company had no specific accruals established for outstanding subrogation, as it is considered a component of the actuarial calculations used to develop the estimates of claims unpaid and aggregate health claim reserves.
