Claims paid: \$734.7 million

Projection for January-December 2021:

Projected premium: \$894.5 million
Projected claims: \$765.0 million

Company Justification for Requested Change

According to the company's filing, its request is made because:

"UMIC is requesting an overall rate increase of 2.90% for the 2021 plan year. This request is primarily based on (1) changes in utilization and cost trends from the 2019 experience period to the 2021 plan year, (2) benefit adjustments UMIC made for the 2021 plan year, and (3) the permanent repeal of the Health Insurance Tax as of the 2021 plan year. Other adjustments include changing demographics, morbidity assumptions, expense trend, Federal cost-sharing reduction shortfall projections, etc. The 2.90% requested increase will ensure UMIC's individual product is adequately and competitively priced for the 2021 plan year."

According to the company's filing, its financial experience has been:

"The overall financial experience of this products is based on claims experience incurred in plan year 2019 and paid as of 4/30/2020, with an additional estimate for claims incurred but not paid (IBNP)."

According to the company's filing, the rate request will affect the financial experience by:

"The 2021 requested rate increase will allow UMIC to provide competitively priced premiums that adequately cover the financial risks associated with this type of product, as well as allowing UMIC to meet the federally mandated Minimum Loss Ratio (MLR) requirement (based on UMIC's financial projections)."

The request is made up of the following components:

- 43.9% of the 2.89% total request is due to Medical Utilization Changes.
- 127.0% of the 2.9% total request is due to Medical Price Changes.
- 8.57% of the 2.9% total request is due to Medical Benefit Changes Required by Law.
- 0.0% of the 2.9% total request is due to Medical Benefit Changes Not Required by Law.
- -86.22% of the 2.9% total request is due to Changes to Administration Costs.
- 6.23% of the 2.9% total request is due to Changes to Profit Margin.
