NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory financial statements of Coventry Health Care of Missouri, Inc. (the "Company"), indirectly a wholly-owned subsidiary of CVS Health Corporation ("CVS Health"), have been prepared in conformity with accounting practices prescribed or permitted by the Missouri Department of Insurance ("Missouri Department") ("Missouri Accounting Practices"). The Missouri Department recognizes only statutory accounting practices prescribed or permitted by the State of Missouri for determining and reporting the financial condition and results of operations of an insurance company, which include accounting practices and procedures adopted by the National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* ("NAIC SAP"). On November 28, 2018, CVS Health acquired Aetna Inc. ("Aetna") and at that date became the Company's ultimate parent (the "Aetna Acquisition").

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Missouri for the years ending December 31, 2018 and 2017 is as follows:

	SSAP #	F/S Page	F/S Line #	2018	2017

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of these financial statements in conformity with Missouri Accounting Practices requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and revenue and expenses. Actual results could differ from those estimates.

C. Accounting Policies

The Company applies the following significant accounting policies:

(1) Cash, Cash Equivalents and Short-Term Investments

Cash, cash equivalents and short-term investments, consisting primarily of money market instruments and other debt issues with an original maturity of up to one year, are carried at amortized cost. Short-term investments consist primarily of investments purchased with an original maturity date of greater than three months but less than one year. Cash equivalents consist of highly liquid instruments, which mature within three months from the date of purchase. The carrying amount of cash, cash equivalents and short-term investments approximates fair value. Cash accounts with positive balances shall not be reported separately from cash accounts with negative balances. If in the aggregate, the reporting entity has a net negative cash balance, it shall be reported as a negative asset and shall not be recorded as a liability.

(2) Bonds

Bonds, which include special deposits, are carried at amortized cost except for those bonds with an NAIC designation of 3 through 6, which are carried at the lower of amortized cost or fair value. The amount carried at fair value is not material to the financial statements. Bond premiums and discounts are amortized using the scientific interest method. When quoted prices in active markets for identical assets are available, the Company uses these quoted market prices to determine the fair value of bonds. This is used primarily for U.S. government securities. In other cases where a quoted market price for identical assets in an active market is either not available or not observable, the Company estimates fair values using valuation methodologies based on available and observable market information or by using a matrix pricing model. If quoted market prices are not available, the Company determines fair value using broker quotes or an internal analysis of each investment's financial performance and cash flow projections. The Company had no investments where fair value was determined using broker quotes or an internal analysis of financial performance and cash flow projections at December 31, 2018 and 2017. Bonds include all investments whose maturity is greater than one year when purchased. Loan-backed and structured securities are carried at amortized cost adjusted for unamortized premiums and discounts. Premiums and discounts on loan-backed and structured securities are amortized using the interest method over the estimated remaining term of the securities, adjusted for anticipated prepayments. All adjustments between amortized cost and carrying value are reflected in unrealized capital gains and losses and are reported as direct adjustments to surplus. Bonds are recorded as purchases or sales on the trade date.

The Company periodically reviews its bonds to determine whether a decline in fair value below the carrying value is other-than-temporary. For bonds, other than loan-backed and structured securities, an other-than-temporary impairment ("OTTI") shall be recorded if it is probable that the Company will be unable to collect all amounts due according to the contractual terms in effect at the date of acquisition. Declines deemed to be OTTI in the cost basis are recognized as realized capital losses. Yield-related impairments are deemed other-than-temporary when the Company intends to sell an investment at the reporting date before recovery of the cost of the investment.

For loan-backed and structured securities, the Company records OTTI when the fair value of the loan-backed or structured security is less than the amortized cost basis at the balance sheet date and (1) the Company intends to sell the investment, or (2) the Company does not have the intent and ability to retain the investment for the time sufficient to recover the amortized cost basis, or (3) the Company does not expect to recover the entire amortized cost basis of the security, even if it does not intend to sell the security and has the intent and ability to hold. If it is determined an OTTI has occurred because of (1) or (2), the amount of the OTTI is equal to the difference between the amortized cost and the fair value of the security at the balance sheet date and this difference is recorded as a realized capital loss. If it is determined an OTTI has occurred because of (3), the amount of the OTTI is equal to the difference between the amortized cost and the present value of cash flows expected to be collected, discounted at the loan-backed or structured security's effective interest rate and this difference is also accounted for as a realized capital loss.

The Company analyzes all relevant facts and circumstances for each investment when performing its analysis to determine whether an OTTI exists. Among the factors considered in evaluating whether a decline is other-than-temporary, management considers whether the decline in fair value results from a change in the quality of the investment security itself, whether the decline results from a downward movement in the market as a whole, the prospects for realizing the carrying value of the bond based on the investee's current and short-term prospects for recovery and other factors. The risks inherent in assessing the impairment of an investment include the risk that market factors may differ from the Company's expectations and the risk that facts and circumstances factored into its assessment may change with the passage of time. Unexpected changes to market factors and circumstances that were not present in past reporting periods may result in a current period decision to sell securities that were not other-than-temporarily-impaired in prior reporting periods.

- (3) The Company did not own any common stock at December 31, 2018 or 2017.
- (4) The Company did not own any preferred stock at December 31, 2018 or 2017.
- (5) Mortgage loans on real estate ("Mortgage Loans") are carried at unpaid principal balances, adjusted for accrual of discounts and amortization of premiums. Mortgage loans funding and repayments are recorded on the closing date. Fair values are estimated by discounting expected mortgage loan cash flows at market rates that reflect the rates at which similar loans would be made to similar borrowers. These rates reflect management's assessment of the credit quality and the remaining duration of the loans. The fair value estimates of mortgage loans of lower credit quality, including problem and restructured loans, are based on the estimated fair value of the underlying collateral. Payment receipts on impaired loans are recorded on the cash basis. The Company recognizes interest income on impaired loans when received. The Company considers a loan impaired when it is probable that the loan will be uncollectible based on its contractual terms. The Company measures the impairment based on the fair value of the collateral less estimated costs to obtain and sell. The difference between the net value of the collateral and the recorded investment in the mortgage loan is recorded as a valuation allowance with a corresponding charge to unrealized loss. If the impairment is deemed other-than-temporary, a write-down is recognized as a realized loss, and a new cost basis is established. This new cost basis is not changed for subsequent recoveries in value. Mortgage loans for which foreclosure is probable are considered permanently impaired.

(6) Securities Lending

The Company engages in securities lending by lending certain securities from its investment portfolio to other institutions for short periods of time. Borrowers must post cash collateral in the amount of 102% to 105% of the fair value of a loaned security. The fair value of the loaned securities is monitored on a daily basis, with additional collateral obtained or refunded as the fair value of the loaned securities fluctuates. The collateral is retained and invested by a lending agent according to the Company's guidelines to generate additional investment income for the Company. Pursuant to SSAP No. 103R - *Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* ("SSAP No. 103R"), collateral required under the Company's securities lending program is carried on the Company's Statutory Statements of Assets and Liabilities, Capital and Surplus as both a receivable and payable. Also pursuant to SSAP No. 103, if the collateral received from a counterparty is less than 100 percent at the reporting date, the difference between the actual collateral and 100 percent is nonadmitted. Collateral value is measured and compared to the loaned securities in aggregate by counterparty.

The Company did not have any loaned securities at December 31, 2018 and 2017

(7) The Company did not have any investments in subsidiaries, controlled or affiliated companies at December 31, 2018 or 2017.

(8) The Company did not have any investments in any joint ventures, partnerships and limited liability companies at December 31, 2018 or 2017.

(9) The Company did not have any derivatives at December 31, 2018 or 2017.

(10) Aggregate Health Policy Reserves and Related Expenses

Premium deficiency reserves ("PDR") are recognized when it is probable that the expected future hospital and medical costs, including maintenance costs, will exceed anticipated future premiums and reinsurance recoveries on existing contracts. Where allowed, anticipated investment income is considered in the calculation of any PDR. For purposes of calculating a PDR, contracts are grouped in a manner consistent with the method of acquiring, servicing and measuring the profitability of such contracts. The Company had no PDR at December 31, 2018 and 2017.

The Company is required to make premium rebate payments to customers that are enrolled under certain health insurance policies if specific minimum annual medical loss ratios ("MLR") were not met in the prior year. The Company's results for full-year 2018 and 2017 included estimates of \$1,226,956 and \$1,226,956, respectively, of minimum MLR rebates, which were included in aggregate health policy reserves in the Statutory Statements of Liabilities and Capital and Surplus. which were included in aggregate health policy reserves in the Statutory Statements of Liabilities and Capital and Surplus.

Additional amounts associated with contracts subject to redetermination of \$26,622,641 and \$8,659,560 were included in aggregate policy reserves at December 31, 2018 and 2017, respectively.

(11) Hospital and Medical Costs and Claims Adjustment Expenses and Related Reserves

Hospital and medical costs consist principally of fee-for-service medical claims and capitation costs. Claims unpaid and aggregate health claim reserves include the Company's estimate of payments to be made on claims reported but not yet paid and for health care services rendered to enrollees but not yet reported to the Company as of the Statutory Statements of Assets and Liabilities, Capital and Surplus date. Such estimates are developed using actuarial principles and assumptions, which consider, among other things, historical and projected claim submission and processing payment patterns, medical cost trends, historical utilization of health care services, claim inventory levels, medical inflation, contract requirement changes in membership and product mix, seasonality and other relevant factors. The Company reflects changes in estimates in hospital and medical costs in the Statutory Statements of Revenue and Expenses in the period they are determined. Capitation costs, which are recorded in hospital and medical expenses in the Statutory Statements of Revenue and Expenses, represent contractual monthly fees paid to participating physicians and other medical providers for providing medical care, regardless of the medical services provided to the enrollee.

The Company uses the triangulation method to estimate reserves for claims incurred but not reported. The method of triangulation makes estimates of completion factors that are then applied to the total paid claims (net of coordination of benefits) to date for each incurral month. This provides an estimate of the total projected incurred claims and total amount outstanding or claims incurred but not reported (claims unpaid). For the most current dates of service where there is insufficient paid claim data to rely solely on the triangulation method, the Company examines cost and utilization trends as well as environmental factors, plan changes, provider contracts, changes in membership and/or benefits, and historical seasonal patterns to estimate the reserve required for these months.

Claims adjustment expenses, which include cost containment expenses, represent the costs incurred related to the claim settlement process such as costs to record, process and adjust claims. These expenses are included in the Company's management agreement with an affiliate described in Note 10.

- (12) As a result of CVS Health's acquisition of Aetna Inc. ("Aetna"), Aetna modified its capitalization policy from the prior period related to furniture and equipment ("F&E") and prepaid assets. Under the revised policy, F&E will be capitalized if greater than \$1,000 versus the previous threshold of \$500. Under the new policy, prepaid assets will be capitalized if greater than \$250,000 versus the previous threshold of \$50,000. These revisions are not expected to have a material impact on the financial results of Aetna or its affiliates, including the Company.

(13) Pharmaceutical Rebate Receivables

The Company estimates pharmaceutical rebate receivables based upon historical payment trends, actual utilization and other variables. Pharmaceutical rebates for a quarter are billed to the vendor within forty five days of the completion of the quarter with any adjustment to previously recorded amounts reflected at the time of billing. The Company reports pharmaceutical rebate receivables as health care receivables. Pharmacy rebate receivables not in accordance with SSAP No. 84 – *Health Care and Government Insured Plan Receivables* or are over 90 days past due are nonadmitted. All rebates are processed and settled with an affiliated entity. The pharmaceutical rebate receivables are more fully discussed in Note 28.

(14) Premiums and Amounts Due and Unpaid

Premium revenue for prepaid health or dental care products is recognized as income in the month in which enrollees are entitled to health or dental care services. Premiums collected before the effective period are reported as premiums received in advance. Premiums related to unexpired contractual coverage periods are reported as unearned premiums in the Statutory Statements of Liabilities, Capital and Surplus (refer to discussion of aggregate health policy reserves and related expenses above).

Nonadmitted amounts consist of all premiums due and unpaid greater than 90 days past due, with the exception of amounts due under government insured plans, which may be admitted assets under certain circumstances. In addition, for any customer for which the premiums due and unpaid greater than 90 days past due is more than a de minimus portion of the entire balance of premiums due and unpaid for that customer, the entire balance of premiums due and unpaid for that customer is nonadmitted. Management also performs a specific review of accounts and based on the results of the review, additional amounts may be nonadmitted. Uncollectible amounts are generally written-off and charged to revenue in the period in which the customer reconciliations are completed and agreed to by the customer (retroactivity) or when the account is determined to be uncollectible by the Company.

(15) Aggregate Health Claim Reserves

The reserve for future contingent benefits includes the estimated cost of services that will continue to be incurred after the Statutory Statements of Liabilities, Capital and Surplus date if the Company is obligated to pay for such services in accordance with contract provisions or regulatory requirements. These balances are recorded in aggregate health claim reserves in the Statutory Statements of Liabilities, Capital and Surplus and are estimated using a percentage of current hospital and medical costs, which is based on the Company's historical cost experience.

(16) Investment Income Due and Accrued

Accrued investment income consists primarily of interest. Interest is recognized on an accrual basis and dividends are recorded as earned on the ex-dividend date. Due and accrued income is not recorded on: (a) bonds in default; and (b) bonds delinquent more than 90 days or where collection of interest is improbable. At December 31, 2018 and 2017, the Company did not have any nonadmitted investment income due and accrued.

(17) Covered and Uncovered Expenses and Related Liabilities

Covered expenses and related liabilities represent costs for health care expenses for which a member is not responsible in the event of the insolvency of the Company. Uncovered expenses and related liabilities represent costs to the Company for health care services that are the obligation of the Company and for which a member may also be liable in the event of the Company's insolvency.

(18) Fees Paid to the Federal Government by Health Insurers

SSAP No. 106 - *Affordable Care Act Section 9010 Assessment* ("SSAP No. 106") required (1) that the health insurer fee be recognized in full on January 1 of the fee year (the calendar year in which the assessment must be paid to the federal government), in the operating expense category of insurance taxes, licenses and fees, excluding federal income taxes and (2) that in each data year preceding a fee year a reporting entity pro-ratably accrue by reclassifying from unassigned funds (surplus) to aggregate write-ins for special surplus funds an amount equal to its estimated subsequent fee year assessment. This reclassification has no impact on total capital and surplus and is reversed in full on January 1 of the fee year. On January 22, 2018, Public Law No: 115-120 was signed into law and it imposes a moratorium on the health insurer fee for calendar year 2019. As interpreted in INT 18-02: *ACA Section 9010 Assessment Moratoriums*, because there is not an ACA Section 9010 fee due in September 2019, there is not an accrual of a liability on January 1, 2019 based on

2018 data year net written premiums. Accrual of a liability on January 1, 2020 for the ACA Section 9010 assessment based on 2019 data year net written premiums and the reclassification from unassigned funds (surplus) to aggregate write-ins for special surplus funds equal to the estimated 2020 fee year assessment accrued in data year 2019 will both continue as prescribed under SSAP No. 106. See Note 22 for disclosure of all amounts related to the health insurer fee for the Company.

(19) The Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010's (collectively, "Health Care Reform") Risk Adjustment

Risk Adjustment

Health Care Reform established a permanent risk adjustment program to transfer funds from qualified individual and small group insurance plans with below average risk scores to plans with above average risk scores. Based on the risk of the Company's qualified plan members relative to the average risk of members of other qualified plans in comparable markets, the Company estimates its ultimate risk adjustment receivable or payable for the current calendar year and reflects the impact as an adjustment to its premium revenue in accordance with SSAP No. 107.

(20) Federal and State Income and Premium Taxes

The Company was included in the consolidated federal income tax return of its parent company, Aetna and Aetna's other wholly-owned subsidiaries through November 27, 2018 pursuant to the terms of a tax sharing agreement. For the tax period ending December 31, 2018, Aetna and its wholly-owned subsidiaries are included in the consolidated federal income tax return of its parent, CVS Health, pursuant to the terms of a tax sharing agreement (and a Supplemental Tax Sharing Agreement where applicable) between CVS Health and the Company. In accordance with both agreements, the Company's current federal and state income tax provisions are generally computed as if the Company were filing a separate federal and state income tax return; current income tax benefits, including those resulting from net operating losses, are recognized to the extent realized in the consolidated return. Pursuant to these agreements, the Company has the enforceable right to recoup federal and state income taxes paid in prior years in the event of future net losses, which it may incur, or to recoup its net losses carried forward as an offset to future net income subject to federal and state income taxes.

Income taxes are accounted for under the asset and liability method. Deferred income tax assets ("DTAs") and liabilities ("DTLs") represent the expected future tax consequences of temporary differences generated by statutory accounting as defined in SSAP No. 101 - Income Taxes. DTAs and DTLs are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. DTAs and DTLs are computed by means of identifying temporary differences which are measured using a balance sheet approach whereby statutory and tax basis balance sheets are compared. Current income tax recoverables include all current income taxes, including interest, reasonably expected to be recovered in a subsequent accounting period.

Pursuant to SSAP No. 101, gross DTAs are first reduced by a statutory valuation allowance adjustment to an amount that is more likely than not to be realized ("adjusted gross DTAs"). Adjusted gross DTAs are then admitted in an amount equal to the sum of paragraphs a. b. and c. below:

- a. Federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse during a timeframe corresponding with Internal Revenue Service ("IRS") tax loss carryback provisions.
- b. The amount of adjusted gross DTAs, after the application of paragraph a. above, expected to be realized within the applicable period and that is no greater than the applicable percentage as determined using the applicable Realization Threshold Limitation Table. The applicable period refers to the number of years in which the DTA will reverse in the Company's tax return and the applicable percentage refers to the percentage of the Company's statutory capital and surplus as required to be shown on the statutory balance sheet adjusted to exclude any net DTAs, electronic data processing equipment and operating system software and any net positive goodwill ("Stat Cap ExDTA").

The Realization Threshold Limitation Tables allow DTAs to be admitted based upon either realization within 3 years and 15% of Stat Cap ExDTA, 1 year and 10% of Stat Cap ExDTA, or no DTA admitted pursuant to this paragraph b. In general, the Realization Threshold Limitation Tables allow the Company to admit more DTAs if total DTAs as reported by the Company are a smaller percentage of statutory capital and surplus.

- c. The amount of gross DTAs, after the application of paragraphs a. and b. above that can be offset against existing gross DTLs. In applying this offset, the Company considers the character (i.e. ordinary versus capital) of the DTAs and DTLs such that offsetting would be permitted in the tax return under existing enacted federal income tax laws and regulations and the reversal patterns of temporary differences.

Changes in DTAs and DTLs are recognized as a separate component of gains and losses in surplus ("Change in net deferred income tax") except to the extent allocated to changes in unrealized gains and

losses. Changes in DTAs and DTLs allocated to unrealized gains and losses are netted against the related changes in unrealized gains and losses and are reported as "Change in net unrealized capital gains (losses)", also a separate component of gains and losses in surplus.

The Company is subject to state income taxes in various states. State income tax expense is recorded in general administrative expenses in the Statutory Statements of Revenue and Expenses. For the years ended December 31, 2018 and 2017, the Company incurred state income tax expenses of \$393,747 and \$3,128,342, respectively. The Company's state income tax receivables of \$2,912,037 and \$1,256,322 at December 31, 2018 and 2017, respectively, were included as an aggregate write-in in the Statutory Statement of Assets. The Company had no state income tax payables at December 31, 2018 and 2017.

The Company is subject to premium taxes in various states. These tax expenses were recorded in general administrative expenses in the Statutory Statements of Revenue and Expenses. The expenses for these taxes were \$1,500 and \$131,490 for the years ended December 31, 2018 and 2017, respectively. The Company had no premium tax payables at December 31, 2018 and 2017. The Company had prepaid premium taxes \$137,834 and \$137,834 at December 31, 2018 and 2017, respectively, were included as an aggregate write-in in the Statutory Statement of Assets.

On December 22, 2017, the Tax Cuts and Jobs Act of 2017 (the "TCJA") was enacted. Among other things, the TCJA reduced the federal corporate income tax rate to 21 percent effective January 1, 2018. See Note 9 for the impact that the TCJA had on the Company.

(21) Reinsurance

In the normal course of business, the Company seeks to reduce the loss that may arise from catastrophes or other events that cause unfavorable underwriting results and to help balance its risks and capital by reinsuring certain levels of risk with other insurance enterprises. The reinsurance coverage does not relieve the Company of its primary obligations. Reinsurance premiums and reserves related to reinsured business are accounted for on a basis consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts. Premiums ceded for medical losses and the related unpaid reserves have been reported as reductions of these items. The reinsurance agreements are more fully discussed in Notes 10 and 23.

D. Going Concern

As of March 1, 2019, management evaluated whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern and management has determined that it is not probable that the Company will be unable to meet its obligations as they become due within one year after the financial statements are available to be issued. Management will continuously evaluate the Company's ability to continue as a going concern and will take appropriate action and will make appropriate disclosures if there is any change in any condition or events that would raise substantial doubt about the Company's ability to continue as a going concern.

2. Accounting Changes and Corrections of Errors

The Company did not have any accounting changes or correction of errors in the years ended December 31, 2018 and 2017.

3. Business Combinations and Goodwill

The Company was not a part of any business combinations that involved the statutory purchase method, a statutory merger, an assumption reinsurance, or an impairment loss in the years ending December 31, 2018 and 2017.

4. Discontinued Operations

The Company did not have any discontinued operations in the years ending December 31, 2018 and 2017.

5. Investments

A. Mortgage Loans, including Mezzanine Real Estate Loans.

- (1) The Company did not have new mortgage loans in 2018.
- (2) The maximum percentage of any one loan to the value of security at the time of the loan, exclusive of insured or guaranteed or purchase money mortgages was 48%.
- (3) The Company did not hold any mortgages with advanced taxes, assessments or amounts due, not included in the mortgage loan total at either December 31, 2018 or 2017.

On December 22, 2017, the Tax Cuts and Jobs Act of 2017 (the "TCJA") was enacted, which among other items, reduces the federal corporate tax rate to 21% effective January 1, 2018. The Company re-measured its deferred income taxes for the year-ended December 31, 2017 and recognized incremental tax expense (benefit) related to the change in its net deferred tax asset/liability. The accounting for income tax effects of the TCJA related to life insurance reserves were provisional at December 31, 2017. Accordingly, the items were recorded at a reasonable estimate at December 31, 2017.

The transfer pricing adjustment allows taxpayers to apply different methods to price current period intercompany services at arm's length prices as compared to what would be charged to an unrelated entity, which results in a permanent deduction for tax reporting purposes.

The Company’s commercial business is a party to an agreement with Coventry Prescription Management Services (“CPMS”), whereby CPMS pays pharmacy claims on the Company’s behalf. The PMPM rate is amended annually and the amendments are

approved by the Bureau of Insurance. All payments by the Company to CPMS are reduced by a PMPM pharmacy rebate credit. The Company paid CPMS \$0 and \$(78,614) in capitation fees for the years ended December 31, 2018 and 2017, respectively. These amounts are included in pharmacy expenses within the Statutory Statements of Revenue and Expenses. SSAP No. 70 states "shared expenses, including expenses under the terms of a management contract, shall be apportioned to the entities incurring the expense as if the expense had been paid solely by the incurring entity. The apportionment shall be completed based upon specific identification to the entity incurring the expense. Where specific identification is not feasible, apportionment shall be based upon pertinent factors or ratios." The Company allocates these expenses based upon a percentage calculated using actual general and administrative expenses incurred by AHM and AMA.

14. Liabilities, Contingencies and Assessments

A. The Company did not have any contingent commitments at December 31, 2018 or 2017.

B. Assessments

Guaranty Fund Assessments

Under guaranty fund laws existing in all states, insurers doing business in those states can be assessed (in most states up to prescribed limits) for certain obligations of insolvent insurance companies to policyholders and claimants. The life and health insurance guaranty associations in which CVS Health and certain of its affiliates, including the Company participate that operate under these laws respond to insolvencies of long-term care insurers as well as health insurers. The Company's assessments generally are based on a formula relating to the Company's health care premiums in the state compared to the premiums of other insurers. Certain states allow assessments to be recovered over time as offsets to premium taxes. Some states have similar laws relating to HMOs and/or other payers such as not-for-profit consumer-governed health plans established under Health Care Reform.

The Company had no assets recognized from paid and accrued premium tax offsets and policy surcharges at December 31, 2018 and 2017.

- F. Various liabilities arise in the normal course of the Company's business and have been recorded. The Company, to the best of its knowledge, has no assets that it considers impaired that are not already recorded in the Company's books.

The Company did not have any material direct premiums written through/produced by managing general agents or third party administrators for the years ended December 31, 2018 and 2017.

20. Fair Value Measurements

A. and B.

Certain of the Company's financial instruments are measured at fair value in the financial statements. The fair values of these instruments are based on valuations that include inputs that can be classified within one of three levels of a hierarchy established by U.S. generally accepted accounting principles. The following are the levels of the hierarchy and a brief description of the type of valuation information ("inputs") that qualifies a financial asset or liability for each level:

- **Level 1** – Unadjusted quoted prices for identical assets or liabilities in active markets.
- **Level 2** – Inputs other than Level 1 that are based on observable market data. These include: quoted prices for similar assets in active markets, quoted prices for identical assets in inactive markets, inputs that are observable that are not prices (such as interest rates and credit risks) and inputs that are derived from or corroborated by observable markets.
- **Level 3** – Developed from unobservable data, reflecting the Company's own assumptions.

Financial assets and liabilities are classified based upon the lowest level of input that is significant to the valuation. When quoted prices in active markets for identical assets and liabilities are available, the Company uses these quoted market prices to determine the fair value of financial assets and liabilities and classifies these assets and liabilities as Level 1. In other cases where a quoted market price for identical assets and liabilities in an active market is either not available or not observable, the Company estimates fair value using valuation methodologies based on available and observable market information or by using a matrix pricing model. These financial assets and liabilities would then be classified as Level 2. If quoted market prices are not available, the Company determines fair value using broker quotes or an internal analysis of each investment's financial performance and cash flow projections. Thus, financial assets and liabilities may be classified in Level 3 even though there may be some significant inputs that may be observable.

C. The carrying values and estimated fair values of the Company's financial instruments at December 31, 2018 and 2017 were as follows:

December 31, 2018

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Not Practicable (Carrying Value)
Bonds, Short Term, and Cash Equivalents	\$199,340,696	\$196,227,276	\$29,443,668	\$169,897,028	\$—		
Mortgage Loans	6,119,859	6,267,709	—	—	6,119,859		

December 31, 2017

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Not Practicable (Carrying Value)
Bonds, Short Term, and Cash Equivalents	\$228,736,551	\$222,480,741	\$22,970,956	\$205,765,595	\$—		
Mortgage Loans	\$6,586,218	\$6,769,306	\$—	\$—	\$6,586,218		

The valuation methods and assumptions used by the Company in estimating the fair value of debt securities are discussed in Note 1.

There were no material realized and unrealized capital gains, purchases, sales, settlements, or transfers into or out of the Company's Level 3 financial assets during 2018 or 2017. There were no transfers between the Company's Level 1 or 2 financial assets during 2018 or 2017.

In evaluating the Company's management of interest rate and liquidity risk and currency exposures, the fair values of all assets and liabilities should be taken into consideration, not only those presented above.

- D. The Company did not have any financial instruments where it was not practicable to estimate the fair value.
- E. The Company has not elected to use the net asset value practical expedient to fair value to measure its investments.

21. Other Items

A. Unusual or Infrequent Items

The Company did not have any unusual or infrequent items for the years ended December 31, 2018 and 2017.

B. Troubled Debt Restructuring

The Company did not have any troubled debt restructuring in the years ended December 31, 2018 and 2017.

C. Other Disclosures

(1) Minimum Capital and Surplus

Pursuant to the laws of the states in which the Company is licensed to do business, the Company is required to maintain a minimum surplus and capital stock as defined by the statutes and regulations of those states. At both December 31, 2018 and 2017, the Company was in compliance with the minimum surplus and capital stock requirements of the states in which it is licensed to do business.

The NAIC and the State of Missouri adopted risk-based capital ("RBC") standards for health organizations, including HMOs, that are designed to identify weakly capitalized companies by comparing each company's adjusted capital and surplus to its required capital and surplus (the "RBC Ratio"). The RBC Ratio is designed to reflect the risk profile of the company. Within certain ratio ranges, regulators have increasing authority to take action as the RBC Ratio decreases. There are four levels of regulatory action, ranging from requiring insurers to submit a comprehensive plan to the state insurance commissioner to requiring the state insurance commissioner to place the insurer under regulatory control. At December 31, 2018 and 2017, the Company had capital and surplus that exceeded the highest threshold specified by the RBC rules.

(2) Health Care Reform

The Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act (collectively, "Health Care Reform" or the "ACA"), has made broad-based changes to the U.S. health care system. If the ACA is not further amended, repealed or replaced, certain of its components will continue to be phased in until 2022. While the Company anticipates continued efforts in 2019 and beyond to invalidate, modify, repeal or replace Health Care Reform, the Company expects aspects of Health Care Reform to continue to significantly impact the Company's business operations and financial results, including pricing, medical benefit ratios ("MBRs") and the geographies in which the Company's products are available.

While most of the significant aspects of Health Care Reform became effective during or prior to 2014, parts of Health Care Reform continue to evolve through the promulgation of executive orders, regulations and guidance as well as ongoing litigation. Additional changes to Health Care Reform and those regulations and guidance at the federal and/or state level are likely, and those changes are likely to be significant. Growing state and federal budgetary pressures make it more likely that any changes, including changes at the state level in response to changes to, or invalidation, repeal or replacement of, Health Care Reform and/or changes in the funding levels and/or payment mechanisms of federally supported benefit programs, will be adverse to us. For example, if any elements of Health Care Reform are invalidated or repealed at the federal level, the Company expects that some states would seek to enact similar requirements, such as prohibiting pre-existing condition exclusions, prohibiting rescission of insurance coverage, requiring coverage for dependents up to age 26, requiring guaranteed renewability of insurance coverage and prohibiting lifetime limits on insurance coverage.

Potential repeal of Health Care Reform, ongoing legislative, regulatory and administrative policy changes to Health Care Reform, the results of congressional and state level elections, the December 2018 U.S. District Court decision invalidating Health Care Reform and other pending litigation challenging aspects of the law or funding for the law and federal budget negotiations continue to create uncertainty about the ultimate impact of Health Care Reform. The pending litigation challenging Health Care Reform includes challenges by various states of the federal government's decision to curtail payments related to the Cost-Sharing Subsidy Program. The time frame for conclusion and final outcome and ultimate impact of this litigation are uncertain. Given the inherent difficulty of foreseeing the nature and scope of future changes to Health Care Reform and how states, businesses and individuals will respond to those changes, the Company cannot predict the impact on it of future changes to Health Care Reform. It is reasonably possible that invalidation, repeal or replacement of or other changes to Health Care Reform and/or states' responses to such changes, in the aggregate, could have a significant adverse effect on the Company's businesses, financial results and cash flows.

(3) Medicare

The Company's Medicare Advantage and Standalone Prescription Drug Plan ("PDP") products are heavily regulated by CMS. The regulations and contractual requirements applicable to the Company and other private participants in Medicare programs are complex, expensive to comply with and subject to change. For example, in the second quarter of 2014, CMS issued a final rule implementing the Health Care Reform requirements that Medicare Advantage and PDP plans report and refund to CMS overpayments that those plans receive from CMS. The precise interpretation, impact and legality of this rule are not clear and are subject to pending litigation. Payments the Company receives from CMS for its Medicare Advantage and PDP businesses also are subject to risk adjustment based on the health status of the individuals enrolled. Elements of that risk adjustment mechanism continue to be challenged by the United States Department of Justice, the OIG and CMS itself. Substantial changes in the risk adjustment mechanism, including changes that result from enforcement or audit actions, could materially affect the fairness of the Company's Medicare reimbursement, require the Company to raise prices or reduce the benefits offered to Medicare beneficiaries, and potentially limit the Company's (and the industry's) participation in the Medicare program.

The Company has invested significant resources to comply with Medicare standards, and its Medicare compliance efforts will continue to require significant resources. CMS may seek premium and other refunds, prohibit the Company from continuing to market and/or enroll members in or refuse to passively enroll members in one or more of the Company's Medicare or Medicare-Medicaid demonstration (historically known as "dual eligible") plans, exclude the Company from participating in one or more Medicare or dual eligible programs and/or institute other sanctions and/or civil monetary penalties against the Company if it fails to comply with CMS regulations or its Medicare contractual requirements.

As a result, there is no annual health insurance industry fee payable on September 30, 2019 and there are no amounts reflected in the Company's aggregate write-ins for special surplus funds related to this payable at December 31, 2018 as a result. B. The Company did not have uncollectible reinsurance at December 31, 2018.

24. Retrospectively Rated Contracts and Contracts Subject to Redetermination

A. Through annual contracts with CMS, the Company offers HMO plans for Medicare-eligible individuals through the Medicare Advantage program. Members typically receive enhanced benefits over standard Medicare fee-for-service coverage, including reduced cost-sharing for preventative care, vision and other non-Medicare services. Members also typically receive coverage for certain prescription drugs, usually subject to a deductible, co-insurance and/or co-payment. The revenues ultimately received by the Company for each member are based on that member's health status and demographic characteristics, as determined via the CMS risk adjustment process, under which the Company regularly submits risk adjustment data to CMS. As such, at December 31, 2018, the Company records a receivable for future revenues that it expects to receive from CMS in the third quarter of 2019, after the final reconciliation of risk adjustment data for contract year 2018 is complete. The Company estimates this receivable by taking into account risk adjustment data for contract year 2018 submitted to CMS prior to December 31, 2018, as well as its estimate of the impact of risk adjustment data for contract year 2018 that will be submitted prior to the appropriate regulatory deadline in early 2019. These amounts are recognized in 2018 as premiums under contracts subject to redetermination. In addition, the Company's Medicare Advantage contracts are subject to retrospective rating provisions under which the Company and CMS share in amounts above and below agreed-upon target medical benefit ratios.

B. These accrued retrospective premiums, if any, are recorded through premiums and are estimated based on calculations that compare the Company's expected financial results for the contract against the appropriate medical benefit ratio target. The Company had net premiums written of \$894,539,807 and \$953,706,066 related to its agreements with CMS for the years ending December 31, 2018 and 2017, respectively, representing 100% for 2018 and 100% for 2017 of total premium revenue. The Company had net premiums receivable of \$27,564,271 and \$127,360 related to its agreements with CMS at December 31, 2018 and 2017 respectively, representing 100.0% for 2018 and 98.3% for 2017 of total premiums receivable.

C. Contracts Subject to Retrospective Rating Features

The Company did not have any contracts subject to retrospective rating features December 31, 2018 and 2017.

D. Medical loss ratio rebates required pursuant to the Public Health Service Act

The Company is required to make premium rebate payments to customers that are enrolled under certain health insurance policies if specific minimum annual MLR were not met in the prior year. The Company's results for full-

25. Change in Incurred Claims and Claims Adjustment Expense

The following table shows the components of the change in claims unpaid, unpaid claims adjustment expense and aggregate health claim reserves for the years ended December 31, 2018 and 2017.

	2018	2017
Balance, January 1	\$65,165,492	\$70,630,769
Health care receivable	(2,968,330)	(2,728,241)
Balance, January 1, net of health care receivable	62,197,162	67,902,528
Incurred related to:		
Current year	705,539,204	727,876,626
Prior years	(13,396,585)	(12,753,121)
Total incurred	692,142,619	715,123,505
Paid related to:		
Current year	652,324,555	674,698,800
Prior years	39,755,068	46,130,071
Total paid	692,079,623	720,828,871
Balance, December 31, net of health care receivable	62,260,158	62,197,162
Health care receivable	3,331,142	2,968,330
Balance, December 31	\$65,591,300	\$65,165,492

In 2018, reserves for incurred claims and claim adjustment expenses attributable to insured events of prior years decreased by \$13,396,585 from \$65,165,492 in 2017 to \$51,768,907 in 2018. In 2017, reserves for incurred claims and claim adjustment expenses attributable to insured events of prior years decreased by \$12,753,121 from \$70,630,769 in 2016 to \$57,877,648 in 2017. The lower than anticipated health care cost trend rates observed in 2017 and 2017 for claims incurred in 2017 and 2016, respectively, were due to moderating outpatient and physician trends and faster than expected claim payment speed. The Company considers historical trend rates together with knowledge of recent events that may impact current trends when developing estimates of current trend rates. Original estimates are increased or decreased as additional information becomes known regarding individual claims. Historical health care cost trend rates are not necessarily representative of current trends. The Company experienced \$13,563,622 of favorable prior year claim

development on retrospectively rated policies, which is included in the net 2017 decrease. However, the business to which it relates is subject to premium adjustments. The Company excluded the impact of the change in health care receivables related to pharmacy rebates from the above roll-forward to conform to NAIC Annual Statement presentation.

Net coordination of benefits are implicit in the claims incurred but not reported calculation and could not be specifically identified.

26. Intercompany Pooling Arrangements

The Company did not have any intercompany pooling arrangements at December 31, 2018 or 2017.

Actual rebates collected are applied to the collection periods below, using a first in first out methodology. At December 31, 2018 and 2017, the Company had pharmaceutical rebate receivables of \$3,331,142 and \$2,968,330, respectively (refer to the Company's accounting practices related to pharmaceutical rebate receivables in Note 1).
