NOTES TO FINANCIAL STATEMENTS**1. Summary of Significant Accounting Policies****A. Accounting Practices**

The financial statements of the company are presented on the basis of accounting practices prescribed or permitted by the Arkansas Insurance Department.

The Arkansas Insurance Department recognizes only statutory accounting practices prescribed or permitted by the state of Arkansas for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Arkansas Insurance Law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures* manual, version effective January 1, 2001, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Arkansas.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Health premiums are earned ratably over the terms of the related insurance and reinsurance contracts or policies. Expenses incurred in connection with acquiring new insurance business are charged to operations as incurred.

In addition, the company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized cost using the interest method.
- (3) Common Stock is stated at market except that investments in stocks of uncombined subsidiaries and affiliates in which the Company has an interest of 20% or more are carried on the equity basis.
- (4) The Company does not have preferred stock.
- (5) The Company does not have mortgage loans.
- (6) The Company does not have loan-backed securities.
- (7) The Company does not have any investments in subsidiaries.
- (8) The Company does not have any investments in joint ventures, partnerships, or limited liability companies.
- (9) The Company does not have any derivatives.
- (10) The Company does not anticipate investment income as a factor in the premium deficiency calculation.
- (11) Claims cost unpaid is the largest estimate for loss liabilities in the HMOP annual statement. The claims liability is set at the regional level, but there are reasonableness checks using a reserve set on an overall basis. When setting liability, the four methods described below are employed. Based on the estimates of these methods and retrospective considerations, the best estimate is set and then an explicit margin is added to ensure that the estimate is good and sufficient. Historically the method relied on the most is the Lag Method.
 - a. **Lag (Development) Method:** A claims triangle is constructed for each block of business. Based on the claims payment patterns, the last 3 months of data are completed manually by adjusting the completion factors. This, in turn, provides an estimate of incurred claims and incurred per member numbers. For the months prior to the most recent three, the completion factors used to complete the data are based on the historical claims payment patterns
 - b. **3 Month Average Method:** As the base liability estimate, the three month average liability of the third, fourth, and fifth month prior to the current month is used. Adjustments are made for trend, membership change, and backlog to get to the estimate
 - c. **IBNR Method:** As the base liability estimate, the liability from one year ago is used and trended forward with adjustments for trend, membership, and backlog.
 - d. **Aggregate Method:** Here, twelve months of paid claims are subtracted from 12 months of estimated incurred claims to get the liability estimate.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) Pharmacy rebate receivable estimates are based upon a history of rebates billed vs. paid pharmacy claims.

NOTES TO FINANCIAL STATEMENTS

2. Accounting Changes and Corrections of Errors

The Company prepares its statutory financial statements in conformity with accounting practices prescribed or permitted by the State of Arkansas. Effective January 1, 2001, the State of Arkansas adopted that insurance companies domiciled in the State of Arkansas prepare their statutory basis financial statements in accordance with the NAIC *Accounting Practices and Procedures* manual – Version effective January 1, 2001 subject to any deviations prescribed or permitted by the State of Arkansas insurance commissioner.

Accounting changes adopted to conform to the provisions of the *NAIC Accounting Practices and Procedures* manual – Version effective January 1, 2001 are reported as changes in accounting principles. The cumulative effect of changes in accounting principles is reported as an adjustment to unassigned funds (surplus) in the period of the change in accounting principle.

There were no accounting changes or correction of errors from the prior period.
