A) Accounting Practices

MCNA Insurance Company ("Company") prepares its financial statements in accordance with accounting and reporting practices prescribed by the National Association of Insurance Commissioners (NAIC) Accounting Practices and Procedures Manual, which was adopted by the Texas Department of Insurance, and constitutes what is referred to as the Statutory Basis of Accounting. Such accounting and reporting is significantly different than generally accepted accounting principles (GAAP) in the United States; and therefore, the accompanying financial statements do not intend to present financial position, results of operations, and cash flows in accordance with GAAP.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Texas is shown below:

NOTES TO FINANCIAL STATEMENTS

B) Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions concerning dental costs, investment valuation and other factors that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities as of the date of the statement of admitted assets, liabilities, capital and surplus, and the revenues and expenses for the three months ended March 31, 2020. Such estimates are based on historical experience and other assumptions that are considered appropriate in the circumstances. However, actual results could differ from those estimates and these differences may be material.

C) Accounting Policies

Based on the Company's contracts with various Medicaid agencies, capitation fees are recorded as revenue except for those deemed to be advances under the terms of the contract. Advance premiums are reflected as unearned and recognized as revenue when earned. For the three months ended March 31, 2020, the Company recorded net capitation fees of \$229,464,364, inclusive of reinsurance experience refund. Current year changes to health policy reserves under various state contracts offset net capitation revenues by \$10,200,530.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments consist of liquid investments, with maturity dates of one year or less at the time of acquisition and are stated at fair market value.
- (2) Bonds are stated at fair market value.
- (3) Common stocks are stated at fair market value.
- (4) Preferred stocks are stated at fair market value.
- (5) The Company does not have any investments in mortgage loans on real estate.
- (6) The Company does not have any investments in loan-backed securities.
- (7) The Company does not have any investments in subsidiaries, controlled and affiliated entities.

NOTES TO FINANCIAL STATEMENTS

- (8) The Company does not have any investments in joint ventures, partnerships, and limited liability companies.
- (9) The Company does not have any investments in derivatives.
- (10) The Company does not utilize anticipated investment income as a factor in the premium deficiency calculation.
- (11) The Company records the cost of services provided by the dentists and specialists in its network based on actual fee-for-service claims submitted, plus an estimate for the cost of services incurred but not reported. For the three months ended March 31, 2020, the Company's cost for dental services was \$185,693,420 before amounts ceded to reinsurer of \$41,967,248.

At year end, the Company's estimate for the cost of dental services incurred but not reported is computed by an independent actuary using standard actuarial methodologies. While management believes the amounts for such liabilities are adequate, these liabilities are based on assumptions and estimates with the ultimate liability being in excess of or less than the amount provided.

- (12) The Company has not modified its capitalization policy from the prior period.

- (13) The Company does not have any pharmaceutical rebates receivable.

- F. In addition to the Company's dependency on its major State Medicaid contracts, it is a regulated entity under Texas, Louisiana, Iowa, Idaho, Nebraska, Arkansas, and Utah Insurance Codes, where we currently operate, and as such is subject to, among other things, changes in initiatives to increase healthcare regulations and restrict insurance pricing and the application of underwriting standards.

The likelihood or outcome of current or future suits cannot be accurately predicted. In addition, the potential for increased liability for negligence arising from claim adjudication, along with possible increased litigation adds to this uncertainty. Such legal actions or government audits and investigations could have an adverse effect on the Company's financial position, results of operations or cash flows.

In December 2019, the President signed into law the "Further Consolidated Appropriations Act, 2020 which repeals several Affordable Care Act ("ACA") excise taxes including the Health Insurer Fee ("HIF") effective for years after 2020. The HIF will be assessed in 2020.

Tax regulations under the Affordable Care Act provide for a fee on health insurers, based on prior year written premiums. The Company fee is approximately \$17,375,000 for the year ending December 31, 2020. Accordingly, during the three months ended March 31, 2020, the company accrued and expensed this amount in full per Statutory Accounting Principles.

Furthermore, in order to meet actuarially sound plan fiscal guidelines, refunding of these fees, including a "gross-up for income tax effect", has been approved. The Company is anticipating reimbursement of approximately \$25,075,000. The Company has recorded this reimbursement in the accompanying financial statements as additional capitation.

20. Fair Value Measurements

Generally accepted accounting principles require that certain assets and liabilities be measured at fair market value while allowing the option to carry certain other assets and liabilities that were not previously measured at fair value at their previous carrying value. In this connection, fair value measurements establish a hierarchy to prioritize the computation of fair value. Such hierarchy consists of a) - valuations based on quoted prices in active markets for identical assets or liabilities (Level 1), b) - valuations based on observable quoted prices for similar assets and liabilities in active markets (Level 2), and c) - valuations based on inputs that are unobservable and are supported by little or no market activity, therefore, requiring management's best estimate of what market participants would use as fair value (Level 3). The Company valued all its investments at March 31, 2020 as Level 1.
